**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

**South Kitsap Water Reclamation Facility
Kitsap County
January 1, 2015 through December 31, 2015**

Board of Commissioners
South Kitsap Water Reclamation Facility
Port Orchard, Washington

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the South Kitsap Water Reclamation Facility, Kitsap County, Washington, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated March 2, 2017. As discussed in Note 8 to the financial statements, during the year ended December 31, 2015, the District implemented Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency,

or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of the District's compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited. It also serves to disseminate information to the public as a reporting tool to help citizens assess government operations.

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS

South Kitsap Water Reclamation Facility Kitsap County January 1, 2015 through December 31, 2015

Board of Commissioners
South Kitsap Water Reclamation Facility
Port Orchard, Washington

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the South Kitsap Water Reclamation Facility, Kitsap County, Washington, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed on page 9.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor

considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the South Kitsap Water Reclamation Facility, as of December 31, 2015, and the changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Matters of Emphasis

As discussed in Note 8 to the financial statements, in 2015, the District adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 16 through 22 and pension plan information on pages 45 through 47 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the

basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated March 2, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS

South Kitsap Water Reclamation Facility Kitsap County January 1, 2013 through December 31, 2014

Board of Commissioners
South Kitsap Water Reclamation Facility
Port Orchard, Washington

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the South Kitsap Water Reclamation Facility, Kitsap County, Washington, as of and for the years ended December 31, 2014 and 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed on page 15.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Controller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor

considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the South Kitsap Water Reclamation Facility, as of December 31, 2014 and 2013, the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 48 through 54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated March 2, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT DISCUSSION & ANALYSIS

As Management of the South Kitsap Water Reclamation Facility (Facility), we offer readers of the financial statements this narrative overview and analysis of the Facility's financial activities for the fiscal years ended December 31, 2015. The intent of this discussion and analysis is to review the Facility's financial performance as a whole. This MD&A provide an overview of the Facility's financial records. The data in this financial report also identifies any material deviation from the financial plan and adopted annual budgets.

We encourage readers of this document to consider the information presented here in conjunction with the financial statements and notes to the financial statements which immediately follow this discussion.

FINANCIAL INFORMATION

The Facility is jointly owned by the City of Port orchard (City) and West Sound Utility District (District). In 1983, the City and District entered into an interlocal partnership agreement for the management and operation of the joint wastewater treatment facility. Under the terms and condition of this agreement, a Sewer Advisory Committee was established to plan for future Facility capital improvements, recommend an appropriate level of operation and capital funding, and overview the preparation of the annual budget for the City's and District's final approval.

The Facility provides secondary wastewater treatment of City and District wastewater utility customers' wastewater. The mission of the Facility has expanded from merely wastewater treatment to reclamation. The goal of the Facility is to achieve higher levels of sustainability. Instead of disposing of biosolids in a non-beneficial manner, the Facility is seeking to use it for land reclamation in Kitsap County. The Facility has also used State and Federal grants to construct a reclaimed water distribution system to use its reclaimed water for irrigation purposes.

The District is responsible for the daily operation and maintenance of the Facility. Cost containment and reduction is a priority for the Facility. The District has obtained grants from Puget Sound Energy to reduce electrical demand with more efficient blowers, better pump controls, disk thickener, booster pumps, HVAC modifications, lighting fixtures and solar heating of the water supply. This benefits both the City and District. Cost sharing of the operations and maintenance is based on the number of equivalent residential units (ERUs) each entity. In 2015, the cost sharing was forty-nine percent (49%) contribution by the City and fifty-one percent (51%) from the District which is 1% higher the contribution in 2014.

The Facility Financial statements are prepared as a joint venture of the City and District. The Facility operates as a political subdivision of the two municipalities. The Facility uses fund accounting to demonstrate and ensure compliance with finance-related legal requirements. A fund is a grouping of related accounts that is used to maintain control over resources that have

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Management Discussion & Analysis
For the Year Ending December 31, 2015

been segregated for specific activities (i.e. sewer treatment). The Facility reports its activities as an *Enterprise Fund*, which is a type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities. As such, the Facility uses the Enterprise Fund to account for its activities. The financial statements are presented in a manner similar to a private-sector business.

The District's Board of Commissioners adopted a biennial budget as a measure of monitoring revenues and controlling expenses. The Commissioners also use the budget as a financial planning tool for the District's future needs. Also, the Board of Commissioners approved in 2012 Resolution 403-12 "Financial Management Policies" and Resolution 337-12, "Capital Assets Policy". These "Financial Management Policies" direct the decision-making process of the District's Board of Commissioners and District administration while operating to provide stability of changing services and financial conditions. These policies also provide guidelines for evaluating both current activities and proposals for future programs and direct the District's financial resources toward meeting the goals and programs identified in the District water and wastewater utility system's comprehensive plans.

The implementation of wise fiscal policies enables the District officials to protect the public interest and ensure public trust and confidence in the District's management of water and wastewater operations. The Board approved new "capital assets policies" since tracking and managing the District's capital assets is a critical accounting and financial management function. It is also important for the District to have a comprehensive policy that provides proper control and accountability of capital assets and collect and maintain complete and accurate capital assets information required for the preparation of the District's financial statements in accordance with generally accepted accounting principles.

Financial Highlights

- The assets of the Facility exceeded its liabilities at the close of the 2015 fiscal year by \$16,194,761. \$1,527,389 was depicted as unrestricted and may be used to meet the Facility's ongoing financial obligations. The Facility does not currently have any restricted net assets.
- The Facility's total net position was \$16,174,562 in 2015.
- The Facility had \$534,897 net pension liabilities after implementing GASB 68.
- The Facility's total long-term debt on capital facility loans decreased by \$912,595 during the fiscal year. As of December 31, 2015, the total outstanding debt was \$7,108,166.
- The Facility's total cash and cash equivalents was \$2,197,017 which is decreased by \$49,371 in 2015 due to \$666,950 digest lid replacement project and the \$400,000 capital contributions from the City and District.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Management Discussion & Analysis
For the Year Ending December 31, 2015

OVERVIEW OF THE FINANCIAL STATEMENTS

The Facility's financial statements include two components: 1) the Facility's basic financial statements, and 2) the notes to the financial statements. This discussion and analysis are intended to serve as an introduction to the Facility's basic financial statements.

Condensed financial position information

The statement of net position presents information concerning the Facility's assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position. Net position is the difference between assets, deferred outflows of resources and liabilities, deferred inflows of resources. Increases or decreases in net position may indicate, over time, if either the financial position of the Facility is improving or deteriorating.

The following condensed financial information provides an overview of the Facility's financial position for the fiscal years ended December 31, 2015.

31-Dec	<u>Net Position</u>	
	2015	2014
Current Assets	2,261,461	2,338,708
Non-current Assets	21,755,338	22,725,786
Total Assets	\$ 24,016,799	\$ 25,064,494
Deferred Outflows of Resources	\$ 62,273	\$ -
Current Liabilities	956,063	989,085
Non-current Liabilities	6,865,975	7,236,794
Total Liabilities	\$ 7,822,038	\$ 8,225,879
Deferred Inflows of Resources	\$ 82,473	\$ -
Net Investment in Capital Assets	14,647,172	14,705,025
Unrestricted	1,527,389	2,133,590
Total Net Position	\$ 16,174,562	\$ 16,838,615

The 2015 total net position was \$16.2 million, which is a decrease of four percent (4%) from 2014.

At the end of 2015, capital assets represent nearly 90.6% of total assets and in 2014 capital assets represent 90.7% of total assets. At December 31, 2015 and 2014, the Facility had non-current liabilities of \$6.9 million and \$7.2 million, respectively. The decreases are due to the Facility making scheduled debt payments and GASB 68 pension liabilities.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Management Discussion & Analysis
For the Year Ending December 31, 2015

The Facility's net investment in capital assets is \$14.6 million at December 31, 2015 and \$14.7 million at December 31, 2014. This capital asset value has decreased as the Facility is depreciating assets. Unrestricted net position represents the amount that may be used to meet the Facility's ongoing non-capital obligations.

The overall financial position of the Facility has not significantly changed from the prior years. There are no restrictions, commitments or other limitations that will significantly affect the availability of fund resources. The Facility reports positive balances in both categories of net positions.

Summary of operations and changes in net position

The statement of revenues, expenses and changes in fund net positions shows how the Facility's net positions changed during fiscal year 2015. These changes are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, some revenues and expenses reported in this statement will only affect future period cash flow (e.g. uncollected receivables).

The following is a condensed version of the Statement of Changes for the Facility.

	<u>Change in Net Position</u>	
	2015	2014
Operating Revenue	3,057,135	2,940,689
Non-operating Revenue	11,642	9,870
Total Revenues	\$ 3,068,777	\$ 2,950,559
Operating Expenses	3,524,482	2,776,145
Non-operating Expenses	37,822	42,385
Total Expenses	\$ 3,562,304	\$ 2,818,530
Capital Contributions	400,000	300,000
Change in Net Position	<u>\$ (93,527)</u>	<u>\$ 432,028</u>
Net Position, Beginning of Year	\$ 16,838,615	\$ 16,406,586
Change in Accounting Principle - GASB 68	(570,526)	0
Net Position, End of Year	<u>\$ 16,174,562</u>	<u>\$ 16,838,615</u>

Total operating revenues for the Facility in 2015 and 2014 were \$3 million and \$2.9 million, respectively. The increase is about four percent (4%), which was mainly attributed to the number of ERUs increasing from both the City and the District.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Management Discussion & Analysis
For the Year Ending December 31, 2015

The \$100,000 dollar increase in capital contributions between 2015 and 2014 represents the extra contributed by the City and the District.

Total operating expenses for 2015 and 2014 were \$3.5 million and \$2.8 million, respectively. The 2015 operating expenses were increased by \$748,337 from the 2014 expenses. The increase in expenses was due to the digest lid replacement project. The decrease of \$4,563 in non-operating expenses was due to loan interest reduction.

Notes to the basic financial statements

The notes to the Facility’s basic financial statements can be found on pages 13 -30 of this report. These notes provide additional information that is essential to a full understanding of the basic financial statements.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets

The Facility’s investment in capital assets as of December 31, 2015, amounted to \$21,755,338 (net of accumulated depreciation). The Facility’s investment in capital assets includes land, construction in progress, structures and improvements, plant equipment, tools and vehicles. The total decrease of the Facility’s investment in capital assets for the current year was 4.3%. The change in capital assets is from accumulated depreciation.

31-Dec	<u>Capital Assets, Net</u>	
	<u>2015</u>	<u>2014</u>
Land	\$ 55,520	\$ 55,520
Construction in Progress	0	121,037
Structures and Improvements	31,178,062	31,075,552
Plant Equipment	6,259,674	6,259,674
Tools and Equipment	136,419	136,419
Vehicles	143,054	143,054
Less; Accumulated Depreciation	<u>(16,017,391)</u>	<u>(15,065,472)</u>
Total Capital Assets, Net	<u>\$ 21,755,338</u>	<u>\$ 22,725,786</u>

Additional information on the Facility’s capital assets can be found in Note 3 of this report.

Long-term debt

The construction cost of the Facility expansion was approximately \$21.5 million. The City of Port Orchard applied for and received a Public Works Trust Fund (PWTF) loan in 2002 for \$10 million. Another PWTF loan in the amount of \$6.8 million was applied for and received in 2004.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Management Discussion & Analysis
For the Year Ending December 31, 2015

The City of Port Orchard was the lead agency on the wastewater treatment plant expansion project, and is the signatory on both of these loans. The project and related debt was turned over to the Facility on December 31, 2007. Each loan is for twenty (20) years. Loan repayment is scheduled by the PWTF, and debt payments are being made by the Facility. The City and District have approved using part of the wastewater treatment capital fees collected by each entity to assist with the annual debt payments on the PWTF loans. In 2015, the City and District each contributed \$200,000 from these capital fees into the Facility’s Operating Fund. Balances owing on the loans, as of December 31, are as follows:

	2015	2014
PW-02-691-043 Facility Expansion Loan #1	\$ 3,868,166	\$ 4,420,761
PW-04-691-056 Facility Expansion Loan #2	\$ 3,240,000	\$ 3,600,000

Additional information on the Facility’s long-term debt can be found in Note 4 of this report.

CASH FLOW

The Facility expects to see some increases in sewage flows to the Facility over the next year. The share of the operation costs of the Facility are computed on an ERU basis (1 ERU equals 180 gallons of water used per day for commercial accounts, and each home or apartment unit represent one ERU). The ERU costs in 2015 and 2014 were \$22.50. These are adjusted each year as needed. The cash flow contributions from both the City and District are expected to meet the needs of the Facility operations for the coming year. In accordance with the District’s financial management policies, the District strives to maintain adequate fund balance and reserves for the Facility in order to provide sufficient cash flows to meet operating and capital expenses, while also providing the financial ability to address economic downturn and system emergencies. As a result, the District works to maintain fund balances for the Facility of no less than 15% (55 days) of total operating expenses to provide sufficient cash flow to meet daily operating expenses and cover debt service payments.

FUTURE YEARS BUDGETARY IMPACTS

The Facility experienced continued slow growth in wastewater treatment and discharge in 2015 due to the community’s slow economy and water conservation. It is anticipated that there will not be a significant increase of wastewater flow volumes in the Facility due to the projected limited growth in new housing units or commercial activity over the next few years. During this economic slowdown, the Facility is continuing to strive to refine its operational procedures and seek means to reduce operational expenses and debt.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING AND FINANCIAL POLICIES

The accounting policies of the South Kitsap Water Reclamation Facility (Facility) conform to generally accepted accounting principles (GAAP) as applicable to proprietary funds of governments. This and consecutive statements are reflected in the accompanying financial statements (including notes to financial statements).

The following is a summary of the most significant policies (including identification of those policies which result in material departures from the generally accepted accounting principles).

A. Reporting Entity

The Facility is a subdivision of the City of Port Orchard (City) and West Sound Utility District (District) that operates with oversight by a six-member Sewer Advisory Board comprised of three Council members and three District Commissioners. As required by generally accepted accounting principles, management has considered all potential component units in defining the reporting entity. The Facility has no component units.

B. Basis of Accounting And Presentation

The accounting records of the Facility are maintained in accordance with methods prescribed by the State Auditor under the authority of Chapter 43.09 RCW. The Facility uses the *Uniform System of Accounts for Class B Utilities*.

The Facility's "proprietary funds" ("Enterprise Utilities" and "Internal Service" funds) are accounted for using the full-accrual basis of accounting for Facility where revenues are recognized when earned and expenses are recognized when incurred. Capital asset purchases are capitalized and long-term liabilities are accounted for in the appropriate funds.

The Facility distinguishes between operating revenues and expenses from non-operating items. Operating revenues and expenses are derived from the sewer services provided to the City and District. Operating expenses include the cost of providing these sewer services as well as depreciation on our capital assets. All revenues and expenses not meeting the above criteria are reported as non-operating revenues and expenses. Unbilled receivables are recorded at year-end. Other income includes gains and losses from disposal of capital assets.

C. Financial Management Policies

The Board of Commissioners has adopted comprehensive financial management policies which are reviewed and updated during the District's annual or biennial budget process. The financial health and welfare of the District is highly dependent upon establishing and maintaining sound, financial-planning objectives and strategies of implementation. As a result, the implementation of these policies provides direction in the decision-making process of the District's Board of Commissioners and District administration while operating to provide stability of changing service and financial conditions. Such policies

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015

enable District officials to protect the public interest and ensure trust and confidence in the District's management of water and wastewater operations and assets. The District's financial management policies include the following components: financial philosophies; budget process; basis of accounting and budgeting; accounting financial reporting, forecasting, information system integrity and auditing policies; operating budget policies; revenue and expenditure policies; capital improvement policies; utility fund policies; internal service fund policies; investment policies and cash management; and debt management policies.

D. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Facility considers all highly liquid investments with a maturity of three months or less purchased to be cash equivalents.

E. Capital Assets

See Note (3)

F. Restricted Funds

There are no restricted funds.

G. Receivables

The policy for writing off uncollectible receivables is made by the District's Board of Commissioners.

H. Investments

See Note (5)

I. Compensated Absences

Compensated absences are absences for which employees will be paid, such as vacation and sick leave. Additionally, employees may accumulate up to 24 hours of comp time earned during the calendar year. The Facility records unpaid leave for compensated absences as an expense and liability when incurred.

Vacation pay may be accumulated up to a maximum accrual of 240 hours and may be carried over to the next calendar year. Accrued vacation pay is payable upon an employee taking a vacation or upon resignation, retirement, or death. Sick leave in excess of one thousand forty (1040) hours of the current month shall be deposited into a VEBA account for the employee. Annual leave and sick leave are payable as follows:

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015

Retirement (vacation)	100% of current balance, not to exceed 240 hours
Retirement (sick leave)	50% not to exceed of 1040 hours
Death (vacation)	100% of current balance
Death (sick leave)	50% not to exceed of 1040 hours
Voluntary Resignation (vacation)	100% of current balance
Voluntary Resignation (sick leave)	25%

J. Long-Term Debt
See Note (4)

K. Infrastructure
Governmental Accounting Standards Board Statement No. 34 allows two methods of reporting for a local government. One is called the “modified approach” and the other is based upon “historical cost”. The Facility has always reported its infrastructure on a historical cost basis with a corresponding offset as accumulated depreciation. The Facility will continue to use “historical cost” as the basis of reporting its infrastructure and use straight-line depreciation as the methods to depict the value of the asset being used over time.

H. Pensions
For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of all state sponsored pension plans and additions to/deductions from those plans’ fiduciary net position have been determined on the same basis as they are reported by the Washington State Department of Retirement Systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2 – JOINT VENTURE

In 1983, the City and the District (Formerly Karcher Creek Sewer District) entered into an interlocal cooperative agreement and created a utility local improvement district (ULID) to help finance construction a jointly-owned wastewater treatment plant. Construction of the Facility was completed in 1985. The participants pay their share of the operating and maintenance expenses based on their portion of flow into the facility. The cost sharing for 2015 was 49% for the City and 51% for the District, where each entity contributes an adequate amount of revenue generated from the sewer utility customer rates to fund the Facility’s operational costs. In addition, the City and District also transfer each year an established amount of general facility charges to assist in funding the Facility’s debt obligations. In 2014, the District and City negotiated and executed a new interlocal agreement which resulted in extending the responsibilities of the District in managing and operating the Facility, in addition to resolving issues pertaining to property and asset ownership, liability and insurance.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015

A Sewer Advisory Board comprised of the three City Council members and three District Commissioners, review and approves the revenue allocation formula each year to ensure that the revenue contributions from the City and District are equitable and the amount is sufficient to cover the Facility's current and future maintenance, capital, debt obligation and operations expenses. In accordance with the joint venture agreement, the District manages the operations of the Facility.

A major expansion of the Facility was approved in 2002 and cost approximately \$21.5 million. This project was approved for a \$10 million Public Works Trust Fund Loan (PWTF Loan #1) in 2002. Another Public Works Trust Fund Loan was approved in 2004 for \$6.8 million (PWTF Loan #2). The City was the lead agency for the expansion project. The City transferred the related assets and liabilities to the Facility upon completion of the project on December 31, 2007. On that date, all assets and liabilities related to the expansion project were included in the financial statements of the Facility.

The District maintains separate accounting records and prepares separate financial statements of the operations of the Facility. The District's Finance Department provides accounting and financial support services to the Facility, and account and finance statements for the Facility can be obtained at the District office, 2924 SE Lund Ave., Port Orchard, WA or the District's website at www.wsud.us.

NOTE 3 – CAPITAL ASSETS

Major expenses for capital assets, including capital leases and major repairs that increase useful lives, are capitalized. The District capitalizes purchases that meet these criteria when the individual cost threshold exceeds \$5,000, as set forth in Resolution 337-12, "Capital Asset Policy". Maintenance, repairs, and minor renewals are accounted for as expenses when incurred.

The Facility in service and other capital assets are recorded at cost where historical cost is known. Where historical cost is not known, assets are recorded at fair market value. Donations by developers and customers are recorded at donor cost.

The original cost of operating property retired or disposed of and the cost of installation, less salvage, is charged to accumulated depreciation. However, in the case of the sale of a significant operating unit or system, the original cost is removed from the Facility accounts, accumulated depreciation is charged with the accumulated depreciation related to the property sold, and the net gain or loss on disposition is credited or charged to income.

Depreciation was computed on the straight-line method. The initial depreciation on the Facility is recorded in the year subsequent to purchase. Structures and Improvements have a useful life of thirty five to fifty years, Plant Equipment has ten to fifteen years and Vehicles have ten years. Preliminary costs incurred for proposed projects are deferred pending construction. Costs relating to projects ultimately constructed are transferred to the Facility; charges that relate to abandoned projects are expensed.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015

The Facility's activity for the year ending December 31, 2015 was as follows:

	Beginning Balance 01/01/2015	Increase	Decrease	Transfers	Ending Balance 12/31/2015
The Facility not being depreciated:					
Land	55,520				55,520

Accumulated Depreciation	15,065,472	951,919			16,017,391
Total the Facility depreciated, net	22,549,228	(951,919)		102,510	21,699,818
Total the Facility capital assets, net	\$ 22,725,786	\$ (951,919)	\$ 18,528	\$ -	\$ 21,755,338

NOTE 4 – LONG-TERM DEBT AND LIABILITIES

A. Long-Term Debt

The Facility has two Public Work Trust Fund loans for its expansion. Loan #1 and #2 will mature in 2022 and 2024. Both loans were issued at interest rates of one half percent (0.5%). The annual requirements to amortize all debts outstanding as of December 31, 2015, including interest, are as follows:

Year Ending December 31	Principal	Interest	Total
2016	912,595	35,541	948,136
2017	912,595	30,978	943,573
2018	912,595	26,415	939,010
2019	912,595	21,852	934,447
2020	912,595	17,289	929,884
2020-2024	2,545,190	26,289	2,571,479
Total	\$ 7,108,165	\$ 158,364	\$ 7,266,529

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015

B. Change in Long Term Liabilities

During the year ended December 31, 2015, the following changes occurred in long-term liabilities:

	Beginning Balance 1/1/2015	Additions	Reduction	Ending Balance 12/31/2015	Due within One Year 2016
PWTF Loan #1	4,420,760		552,595	3,868,166	552,595
PWTF Loan #2	3,600,000		360,000	3,240,000	360,000
Compensated Absences	131,615	7,809		139,424	3,917
Net Pension Liabilities*	414,257	120,641		534,897	
Total	8,566,632	128,450	912,595	7,782,487	916,512
Less Current Portion				\$ 916,512	
Total Long-Term Liabilities				\$ 6,865,975	

*Beginning balance was restated for implementation of GASB 68

NOTE 5 – DEPOSITS AND INVESTMENTS

A. Deposits

Kitsap County is the Treasurer for the Facility’s funds. The Facility’s deposits with the Kitsap County Treasurer are covered by Federal Depository Insurance (FDIC) or by collateral held in a multiple financial institution collateral pool administered by the Washington Public Deposit Protection Commission.

B. Investments

As required by state law, all investments of the Facility’s funds must be obligations of the U.S. Government, U.S. agency issues, obligations of the State of Washington, general obligations of Washington State municipalities, the Kitsap County’s Investment Pool, or certificate of deposit with Washington State banks and savings and savings and loan institutions. All temporary investments are stated at fair value.

As of December 31, 2015, the Facility has the following cash and investments:

	Cash	Investments	Total
Washington State Investment Pool		\$ 2,181,218	\$ 2,181,218
Kitsap County Treasurer	\$ 15,699		\$ 15,699
Petty Cash	\$ 100		\$ 100
Total	\$ 15,799	\$ 2,181,218	\$ 2,197,017

Custodial credit risk is the risk that in event of a failure of the counterparty to an investment transaction the Facility would not be able to recover the value of the

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015

investment or collateral securities. The District only has investments for the Facility that are held by the Kitsap County Investment Pool.

NOTE 6 – PENSION PLANS

The following table represents the aggregate pension amounts for all plans subject to the requirements of the GASB Statement 68, *Accounting and Financial Reporting for Pensions* for the year 2015:

Aggregate Pension Amounts – All Plans	
Pension liabilities	\$ 534,897
Deferred outflows of resources	\$ 62,273
Deferred inflows of resources	\$ 82,473
Pension expense/expenditures	\$ 47,424

State Sponsored Pension Plans

Substantially all the Facility’s employees participate in PERS Plan 2/3, one of the statewide retirement systems administered by the Washington State Department of Retirement Systems, under cost-sharing, multiple-employer public employee defined benefit and defined contribution retirement plans. The state Legislature establishes, and amends, laws pertaining to the creation and administration of all public retirement systems.

The Department of Retirement Systems (DRS), a department within the primary government of the State of Washington, issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for each plan. The DRS CAFR may be obtained by writing to:

Department of Retirement Systems
 Communications Unit
 P.O. Box 48380
 Olympia, WA 98540-8380

Or the DRS CAFR may be downloaded from the DRS website at www.drs.wa.gov.

Public Employees’ Retirement System (PERS)

PERS members include elected officials; state employees; employees of the Supreme, Appeals and Superior Courts; employees of the legislature; employees of district and municipal courts; employees of local governments; and higher education employees not participating in higher

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015

education retirement programs. PERS is comprised of three separate pension plans for membership purposes. PERS plans 1 and 2 are defined benefit plans, and PERS plan 3 is a defined benefit plan with a defined contribution component.

PERS Plan 1 provides retirement, disability and death benefits. Retirement benefits are determined as two percent of the member’s average final compensation (AFC) times the member’s years of service. The AFC is the average of the member’s 24 highest consecutive service months. Members are eligible for retirement from active status at any age with at least 30 years of service, at age 55 with at least 25 years of service, or at age 60 with at least five years of service. Members retiring from active status prior to the age of 65 may receive actuarially reduced benefits. Retirement benefits are actuarially reduced to reflect the choice of a survivor benefit. Other benefits include duty and non-duty disability payments, an optional cost-of-living adjustment (COLA), and a one-time duty-related death benefit, if found eligible by the Department of Labor and Industries. PERS 1 members were vested after the completion of five years of eligible service. The plan was closed to new entrants on September 30, 1977.

Contributions

The **PERS Plan 1** member contribution rate is established by State statute at 6 percent. The employer contribution rate is developed by the Office of the State Actuary and includes an administrative expense component that is currently set at 0.18 percent. Each biennium, the state Pension Funding Council adopts Plan 1 employer contribution rates. The PERS Plan 1 required contribution rates (expressed as a percentage of covered payroll) for 2015 were as follows:

PERS Plan 1		
Actual Contribution Rates:	Employer	Employee*
January through June 2015	9.21%	6.00%
July through December 2015	11.18%	6.00%

* For employees participating in JBM, the contribution rate was 12.26%

The Facility’s actual contributions to the plan were \$27,572 for the year ended December 31, 2015.

PERS Plan 2/3 provides retirement, disability and death benefits. Retirement benefits are determined as two percent of the member’s average final compensation (AFC) times the member’s years of service for Plan 2 and 1 percent of AFC for Plan 3. The AFC is the average of the member’s 60 highest-paid consecutive service months. There is no cap on years of service credit. Members are eligible for retirement with a full benefit at 65 with at least five years of service credit. Retirement before age 65 is considered an early retirement. PERS Plan 2/3 members who have at least 20 years of service credit and are 55 years of age or older, are eligible for early retirement with a benefit that is reduced by a factor that varies according to age for each year before age 65. PERS Plan 2/3 members who have 30 or more years of service credit and are at least 55 years old can retire under one of two provisions:

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015

- With a benefit that is reduced by three percent for each year before age 65; or
- With a benefit that has a smaller (or no) reduction (depending on age) that imposes stricter return-to-work rules.

PERS Plan 2/3 members hired on or after May 1, 2013 have the option to retire early by accepting a reduction of five percent for each year of retirement before age 65. This option is available only to those who are age 55 or older and have at least 30 years of service credit. PERS Plan 2/3 retirement benefits are also actuarially reduced to reflect the choice of a survivor benefit. Other PERS Plan 2/3 benefits include duty and non-duty disability payments, a cost-of-living allowance (based on the CPI), capped at three percent annually and a one-time duty related death benefit, if found eligible by the Department of Labor and Industries. PERS 2 members are vested after completing five years of eligible service. Plan 3 members are vested in the defined benefit portion of their plan after ten years of service; or after five years of service if 12 months of that service are earned after age 44.

PERS Plan 3 defined contribution benefits are totally dependent on employee contributions and investment earnings on those contributions. PERS Plan 3 members choose their contribution rate upon joining membership and have a chance to change rates upon changing employers. As established by statute, Plan 3 required defined contribution rates are set at a minimum of 5 percent and escalate to 15 percent with a choice of six options. Employers do not contribute to the defined contribution benefits. PERS Plan 3 members are immediately vested in the defined contribution portion of their plan.

Contributions

The **PERS Plan 2/3** employer and employee contribution rates are developed by the Office of the State Actuary to fully fund Plan 2 and the defined benefit portion of Plan 3. The Plan 2/3 employer rates include a component to address the PERS Plan 1 UAAL and an administrative expense that is currently set at 0.18 percent. Each biennium, the state Pension Funding Council adopts Plan 2 employer and employee contribution rates and Plan 3 contribution rates. The PERS Plan 2/3 required contribution rates (expressed as a percentage of covered payroll) for 2015 were as follows:

PERS Plan 2/3		
Actual Contribution Rates:	Employer 2/3	Employee 2*
January through June 2015	9.21%	4.92%
July through December 2015	11.18%	6.12%
Employee PERS Plan 3		varies

* For employees participating in JBM, the contribution rate was 15.30%

The Facility's actual contributions to the plan were \$35,276 for the year ended December 31, 2015.

**MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015**

Actuarial Assumptions

The total pension liability (TPL) for each of the DRS plans was determined using the most recent actuarial valuation completed in 2015 with a valuation date of June 30, 2014. The actuarial assumptions used in the valuation were based on the results of the Office of the State Actuary's (OSA) *2007-2012 Experience Study*.

Additional assumptions for subsequent events and law changes are current as of the 2014 actuarial valuation report. The TPL was calculated as of the valuation date and rolled forward to the measurement date of June 30, 2015. Plan liabilities were rolled forward from June 30, 2014, to June 30, 2015, reflecting each plan's normal cost (using the entry-age cost method), assumed interest and actual benefit payments.

- **Inflation:** 3% total economic inflation; 3.75% salary inflation
- **Salary increases:** In addition to the base 3.75% salary inflation assumption, salaries are also expected to grow by promotions and longevity.
- **Investment rate of return:** 7.5%

Mortality rates were based on the RP-2000 report's Combined Healthy Table and Combined Disabled Table, published by the Society of Actuaries. The OSA applied offsets to the base table and recognized future improvements in mortality by projecting the mortality rates using 100 percent Scale BB. Mortality rates are applied on a generational basis; meaning, each member is assumed to receive additional mortality improvements in each future year throughout his or her lifetime.

There were minor changes in methods and assumptions since the last valuation.

- The OSA updated demographic assumptions, consistent with the changes from the *2007-2012 Experience Study Report*, used when valuing the PERS 1 and TERS 1 Basic Minimum COLA.
- The OSA corrected how valuation software calculates a member's entry age under the entry age normal actuarial cost method. Previously, the funding age was rounded, resulting in an entry age one year higher in some cases.
- For purposes of calculating the Plan 2/3 Entry Age Normal Cost contribution rates, the OSA now uses the current blend of Plan 2 and Plan 3 salaries rather than using a long-term membership assumption of two-thirds Plan 2 members and one-third Plan 3 members.
- The OSA changed the way it applies salary limits, as described in the *2007-2012 Experience Study Report*.

Discount Rate

The discount rate used to measure the total pension liability for all DRS plans was 7.5 percent.

**MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015**

To determine that rate, an asset sufficiency test included an assumed 7.7 percent long-term discount rate to determine funding liabilities for calculating future contribution rate requirements.

(All plans use 7.7 percent except LEOFF 2, which has assumed 7.5 percent). Consistent with the long-term expected rate of return, a 7.5 percent future investment rate of return on invested assets was assumed for the test. Contributions from plan members and employers are assumed to continue being made at contractually required rates (including PERS 2/3 employers, whose rates include a component for the PERS 1 plan liabilities). Based on these assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return of 7.5 percent was used to determine the total liability.

Long-Term Expected Rate of Return

The long-term expected rate of return on the DRS pension plan investments of 7.5 percent was determined using a building-block-method. The Washington State Investment Board (WSIB) used a best estimate of expected future rates of return (expected returns, net of pension plan investment expense, including inflation) to develop each major asset class. Those expected returns make up one component of WSIB's capital market assumptions. The WSIB uses the capital market assumptions and their target asset allocation to simulate future investment returns at various future times. The long-term expected rate of return of 7.5 percent approximately equals the median of the simulated investment returns over a 50-year time horizon.

Estimated Rates of Return by Asset Class

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2015, are summarized in the table below. The inflation component used to create the table is 2.2 percent and represents the WSIB's most recent long-term estimate of broad economic inflation.

Asset Class	Target Allocation	% Long-Term Expected Real Rate of Return Arithmetic
Fixed Income	20%	1.70%
Tangible Assets	5%	4.40%
Real Estate	15%	5.80%
Global Equity	37%	6.60%
Private Equity	23%	9.60%
	100%	

Sensitivity of NPL

The table below presents the Facility's proportionate share* of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the Facility's proportionate share of the net

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015

pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.5 percent) or one percentage point higher (8.5 percent) than the current rate.

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
PERS 1	\$346,016	\$284,201	\$231,046
PERS 2/3	\$733,018	\$250,686	\$(118,618)

Pension Plan Fiduciary Net Position

Detailed information about the State’s pension plans’ fiduciary net position is available in the separately issued DRS financial report.

Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the Facility reported a total pension liability of \$534,897 for its proportionate share of the net pension liabilities as follows:

	Liability
PERS 1	\$284,201
PERS 2/3	\$250,696

At June 30, the Facility’s proportionate share of the collective net pension liabilities was as follows:

	Proportionate Share 6/30/14	Proportionate Share 6/30/15	Change in Proportion
PERS 1	0.005422%	0.005433%	0.000011%
PERS 2/3	0.006981%	0.007016%	0.000035%

Employer contribution transmittals received and processed by the DRS for the fiscal year ended June 30 are used as the basis for determining each employer’s proportionate share of the collective pension amounts reported by the DRS in the *Schedules of Employer and Nonemployer Allocations* for all plans except LEOFF 1.

The collective net pension liability (asset) was measured as of June 30, 2015, and the actuarial valuation date on which the total pension liability (asset) is based was as of June 30, 2014, with update procedures used to roll forward the total pension liability to the measurement date.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015

Pension Expense

For the year ended December 31, 2015, the Facility recognized pension expense as follows:

	Pension Expense
PERS 1	\$ 17,429
PERS 2/3	\$ 29,995
Total	\$ 47,424

Deferred Outflows of Resources and Deferred Inflows of Resources

At December 31, 2015, the Facility reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

PERS 1	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual investment earnings on pension plan investments		\$15,549
Contributions subsequent to the measurement date	\$14,830	
TOTAL	\$14,830	\$15,549

PERS 2/3	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$26,649	
Net difference between projected and actual investment earnings on pension plan investments		\$66,924
Changes of assumptions	\$404	
Changes in proportion and differences between contributions and proportionate share of contributions	\$1,130	
Contributions subsequent to the measurement date	\$19,260	
TOTAL	\$47,443	\$66,924

Deferred outflows of resources related to pensions resulting from the Facility's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2016. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions were recognized in pension expense as follows:

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015

Year ended December 31:	PERS 1	PERS 2/3
2016	\$ (6,026)	\$ (17,838)
2017	\$ (6,026)	\$ (17,838)
2018	\$ (6,026)	\$ (17,838)
2019	\$ 2,530	\$ 14,774
Total	\$ (15,549)	\$ (38,740)

NOTE 7 – RISK MANAGEMENT

The Facility is a member of the Water and Sewer Risk Management Pool (Pool). Chapter 48.62 RCW authorizes the governing body of any one or more governmental entities to form together into or join a pool or organization for the joint purchasing of insurance, and/or joint self-insuring, and/or joint hiring or contracting for risk management services to the same extent that they may individually purchase insurance, self-insurance, or hire or contract for risk management services.

An agreement to form a pooling arrangement was made pursuant to the provisions of Chapter 39.34 RCW, the Interlocal Cooperation Act. The Pool was formed in November 1987 when water and sewer districts in the State of Washington joined together by signing an Interlocal Governmental Agreement to pool their self-insured losses and jointly purchase insurance and administrative services. The Pool currently has 66 members. The Pool’s fiscal year is November 1 through October 31.

The Pool allows members to jointly purchase insurance coverage, establish a plan of self-insurance coverage, and provide related services, such as risk management and loss prevention. The Pool provides the following forms of group purchased insurance coverage for its members: Property (including Building, Electronic Data Processing, Boiler and Machinery, and Mobile Equipment); General Liability; Automotive Liability; Excess Liability, Crime; Public Officials Liability; Identity Fraud Reimbursement Program; and bonds of various types. All coverages are on an “occurrence” basis.

Members make an annual contribution to fund the Pool. The Pool purchases insurance policies from unrelated underwriters as follows:

TYPE OF COVERAGE	MEMBER DEDUCTIBLE	SELF-INSURED RETENTION/GROUP	EXCESS LIMITS
Property Loss:			
Buildings and Contents	\$1,000 - \$25,000 and See (C) below	\$25,000	\$1,000,000,000
Flood	See (A) below	See (A) below	\$50,000,000
Earthquake	See (B) below	See (B) below	\$75,000,000 (\$50,000,000 shared by all members and \$25,000,000 dedicated to Alderwood)
Terrorism	\$1,000 - \$25,000	\$25,000	\$100,000,000

Identity Fraud	\$0	\$25,000	\$0
A. \$100,000 member deductibles, per occurrence, in Flood zones except Zones A&V; \$250,000 member deductible per occurrence, in Flood Zones A&V.			
B. Member deductible for earthquakes is 5% subject to \$100,000 minimum Earthquake Shock. If the stated deductible is on a percentage basis, the deductible will apply per occurrence on a per unit basis, as defined in the policy form, subject to the stated minimum.			
C. Member deductible for Cyber liability is \$100,000 and where applicable the dollar amount of the business interruption loss during the policy's required 8 hour waiting period.			

Pool members are responsible for a deductible on each coverage and the Pool is responsible for the remainder of the self-insured retention listed in the table above except where noted as follows. The insurance carriers then cover the loss to the maximum limit of the policy. Each member is responsible for the full deductible applicable to the perils of earthquake and flood (the Pool is not responsible for any deductible or self-insured retention for earthquake and flood claims). Each member is also responsible for the full deductible applicable to the Cyber Liability, and that part of a Boiler & Machinery deductible, which exceeds \$25,000. In past three years, the Plant had no settlements exceeded insurance coverage.

Upon joining, the members contract to remain in the Pool for one full policy period. Following completion of one full policy period, members must give six months notice before terminating participation (e.g. to withdraw from the Pool on November 1, 2016, written notice must be in possession of the Pool by April 30, 2016). The Interlocal Governmental Agreement is renewed automatically each year. Even after termination of relationship with the Pool, a member is still responsible for contributions to the Pool for any unresolved, unreported, and in process claims, for the period that the District was a signatory to the Interlocal Governmental Agreement.

The Pool is fully funded by its member participants. Claims are filed by members with the Pool who determines coverage and performs claims adjustment in consultation with Arcadia Claims Services and Adjusters Northwest.

The Pool is governed by a Board of Directors, which is comprised of one designated representative from each participating member. An Executive Committee is elected at the annual meeting, and is responsible for overseeing the business affairs of the Pool and providing policy direction to the Pool's Executive Director.

aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Year Ending December 31, 2015

This summary of coverage is not confirmation of coverage or insurance and does not add to extend amend, change or alter any coverage in any actual memorandum of coverage, or policy of insurance you may have. All existing memorandum of coverage and insurance policy terms, conditions, exclusions, and limitations apply. For specific information regarding your coverage, please refer to the memorandum of coverage or insurance policies themselves.

NOTE 8 – OTHER DISCLOSURES

Implementation of New Governmental Accounting Standards Board Pronouncements. The District implemented GASB 68, *Accounting and Financial Reporting for Pensions* and GASB 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. These statements establish standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources and expense/expenditures related to pensions. As a result of implementing this standard, the Plant recognized an adjustment to beginning net position of \$570,526, presented as a change in accounting principles.

NOTE 9 – SUBSEQUENT EVENTS

Property Title Transfer. As a result of the April 22, 2014 Interlocal Agreement, the Plant management and Operations conducted a review of the Plant property ownership history. To correct past scrivener errors and to clear title, West Sound Utility District, the City of Port Orchard, Kitsap Transit and the State Department of Veteran Affairs will execute the legal transfer of properties to the Plant next year.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Required Supplemental Information - Pension

Note 1: Information Provided

The Plant shared the Organization Identification Number under Washington State Department of Retirement System with West Sound Utility District (WSUD). All pension data including allocation percentage were recalculated according to the percentage of the District and the Plant's contributions.

The Plant implemented GASB 68 for the year ended December 31, 2015, therefore there is no data available for years prior to 2014.

There are no Plant employees participating in the PERS 1 plan in 2014 or 2015; therefore, there is no covered payroll or contribution data to report under PERS 1. A portion of the total PERS 1 plan liability is shared by PERS 2/3 employers, and as such the PERS 1 liability and employer's share for the Plant are presented.

Note 2: Significant Factors

There are no changes of benefit terms, significant changes in the employees covered under the benefit terms or in the use of different assumptions

Note 3: Change in Contribution Rate

The employer contribution rates for both PERS 1 and PERS 2/3 plans increased from 9.21% to 11.18% for pay periods beginning July 2015.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Management Discussion & Analysis
For the Years Ending December 31, 2014 and 2013

MANAGEMENT DISCUSSION & ANALYSIS

As Management of the South Kitsap Water Reclamation Facility (Facility), we offer readers of the financial statements this narrative overview and analysis of the Facility's financial activities for the fiscal years ended December 31, 2014 and 2013. The intent of this discussion and analysis is to review the Facility's financial performance as a whole. This MD&A provide an overview of the Facility's financial records. The data in this financial report also identifies any material deviation from the financial plan and adopted annual budgets.

We encourage readers of this document to consider the information presented here in conjunction with the financial statements and notes to the financial statements which immediately follow this discussion.

FINANCIAL INFORMATION

The Facility is jointly owned by the City of Port orchard (City) and West Sound Utility District (District). In 1983, the City and District entered into an interlocal partnership agreement for the management and operation of the joint wastewater treatment facility. Under the terms and condition of this agreement, a Sewer Advisory Committee was established to plan for future Facility capital improvements, recommend an appropriate level of operation and capital funding, and overview the preparation of the annual budget for the City's and District's final approval.

The Facility provides secondary wastewater treatment of City and District wastewater utility customers' wastewater. The mission of the Facility has expanded from merely wastewater treatment to reclamation. The goal of the Facility is to achieve higher levels of sustainability. Instead of disposing of biosolids in a non-beneficial manner, the Facility is seeking to use it for land reclamation in Kitsap County. The Facility has also used State and Federal grants to construct a reclaimed water distribution system to use its reclaimed water for irrigation purposes.

The District is responsible for the daily operation and maintenance of the Facility. Cost containment and reduction is a priority for the Facility. The District has obtained grants from Puget Sound Energy to reduce electrical demand with more efficient blowers, better pump controls, disk thickener, booster pumps, HVAC modifications, lighting fixtures and solar heating of the water supply. This benefits both the City and District. Cost sharing of the operations and maintenance is based on the amount of water flow from each entity. In 2014, the cost sharing was forty-eight percent (48%) contribution by the City and fifty-two percent (52%) from the District which is the same as the contribution in 2013.

The Facility Financial statements are prepared as a joint venture of the City and District. The Facility operates as a political subdivision of the two municipalities. The Facility uses fund accounting to demonstrate and ensure compliance with finance-related legal requirements. A fund is a grouping of related accounts that is used to maintain control over resources that have

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Management Discussion & Analysis
For the Years Ending December 31, 2014 and 2013

been segregated for specific activities (i.e. sewer treatment). The Facility reports its activities as an *Enterprise Fund*, which is a type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities. As such, the Facility uses the Enterprise Fund to account for its activities. The financial statements are presented in a manner similar to a private-sector business.

The District's Board of Commissioners adopted a biennial budget as a measure of monitoring revenues and controlling expenses. The Commissioners also use the budget as a financial planning tool for the District's future needs. Also, the Board of Commissioners approved in 2012 Resolution 403-12 "Financial Management Policies" and Resolution 337-12, "Capital Assets Policy". These "Financial Management Policies" direct the decision-making process of the District's Board of Commissioners and District administration while operating to provide stability of changing services and financial conditions. These policies also provide guidelines for evaluating both current activities and proposals for future programs and direct the District's financial resources toward meeting the goals and programs identified in the District water and wastewater utility system's comprehensive plans.

The implementation of wise fiscal policies enables the District officials to protect the public interest and ensure public trust and confidence in the District's management of water and wastewater operations. The Board approved new "capital assets policies" since tracking and managing the District's capital assets is a critical accounting and financial management function. It is also important for the District to have a comprehensive policy that provides proper control and accountability of capital assets and collect and maintain complete and accurate capital assets information required for the preparation of the District's financial statements in accordance with generally accepted accounting principles.

Financial Highlights

- The assets of the Facility exceeded its liabilities at the close of the 2014 fiscal year by \$16,838,615 and in 2013 by \$16,406,586. \$2,133,590 is depicted as unrestricted and may be used to meet the Facility's ongoing financial obligations. The Facility does not currently have any restricted net assets.
- The Facility's total net position increased by \$432,028 in 2014 and \$367,242 in 2013. The increase is due to capital improvements to the Facility funded by capital contributions from the City and District and decreased expenses from operations.
- The Facility's total long-term debt on capital facility loans decreased by \$912,595 during the fiscal year. As of December 31, 2014, the total outstanding debt was \$8,020,761.
- The Facility's total cash and cash equivalents increased by \$286,057 in 2014 due to the \$300,000 capital contributions from the City and District.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Management Discussion & Analysis
For the Years Ending December 31, 2014 and 2013

OVERVIEW OF THE FINANCIAL STATEMENTS

The Facility's financial statements include two components: 1) the Facility's basic financial statements, and 2) the notes to the financial statements. This discussion and analysis are intended to serve as an introduction to the Facility's basic financial statements.

Condensed financial position information

The statement of balance sheet presents information concerning the Facility's assets, liabilities and net position. Net position is the difference between assets and liabilities. Increases or decreases in net assets may indicate, over time, if either the financial position of the Facility is improving or deteriorating.

The following condensed financial information provides an overview of the Facility's financial position for the fiscal years ended December 31, 2014 and 2013.

31-Dec	<u>Net Position</u>		
	<u>2014</u>	<u>2013</u>	<u>2012</u>
Current Assets	2,338,708	1,998,969	1,655,779
Non-current Assets	22,725,786	23,536,590	24,499,148
Total Assets	\$ 25,064,493	\$ 25,535,559	\$ 26,154,927
Current Liabilities	989,085	979,943	1,008,126
Non-current Liabilities	7,236,794	8,149,030	9,107,457
Total Liabilities	\$ 8,225,879	\$ 9,128,973	\$ 10,115,583
Net Investment in Capital Assets	14,705,025	14,603,235	14,653,197
Unrestricted	2,133,590	1,803,351	1,386,147
Total Net Position	\$ 16,838,615	\$ 16,406,586	\$ 16,039,344

The 2014 total net position was \$16.8 million, which is an increase of two percent (2.6%) from 2013. The 2013 total net position was \$16.4 million, which is an increase of two percent (2.3%) from 2012.

At the end of 2014, capital assets represent nearly 90.7% of total assets and in 2013 capital assets represent 92.2% of total assets. At December 31, 2014, 2013 and 2012, the Facility had non-current liabilities of \$7.2 million, \$8.1 million and \$9.1 million, respectively. The decreases are due to the Facility making scheduled debt payments.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Management Discussion & Analysis
For the Years Ending December 31, 2014 and 2013

The Facility's net investment in capital assets is \$14.7 million at December 31, 2014, \$14.6 million at December 31, 2013, and \$14.7 million at December 31, 2012. This capital asset value has increased over the last three years as the Facility is depreciating assets at a rate that is less than the value of added capital improvements to the Facility. Unrestricted net position represents the amount that may be used to meet the Facility's ongoing non-capital obligations.

The overall financial position of the Facility has not significantly changed from the prior years. There are no restrictions, commitments or other limitations that will significantly affect the availability of fund resources. The Facility reports positive balances in all categories of net positions.

Summary of operations and changes in net position

The statement of revenues, expenses and changes in fund net positions shows how the Facility's net positions changed during fiscal year 2014. These changes are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, some revenues and expenses reported in this statement will only affect future period cash flow (e.g. uncollected receivables).

The following is a condensed version of the Statement of Changes for the Facility.

	<u>Change in Net Position</u>		
	2014	2013	2012
Operating Revenue	2,940,689	2,996,484	3,057,987
Non-operating Revenue	9,870	5,446	(1,971)
Total Revenues	\$ 2,950,558	\$ 3,001,930	\$ 3,056,016
Operating Expenses	2,776,145	2,845,948	2,525,366
Non-operating Expenses	42,385	46,948	51,511
Total Expenses	\$ 2,818,530	\$ 2,892,896	\$ 2,576,877
Excise Tax Refund			168,156
Capital Contributions	300,000	258,208	515,864
Change in Net Position	\$ 432,028	\$ 367,242	\$ 1,163,158
Net Position, Beginning of Year	16,406,586	16,039,344	14,876,186
Net Position, End of Year	\$ 16,838,614	\$ 16,406,586	\$ 16,039,344

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Management Discussion & Analysis
For the Years Ending December 31, 2014 and 2013

Total operating revenues for the Facility in 2014, 2013 and 2012 were \$2.9 million, \$3 million and \$3.1 million, respectively. The decrease between fiscal year 2014 and 2013 is about two percent (2%), which was mainly attributed to revenue for contract operations.

The \$41,792 dollar increase in capital contributions between 2014 and 2013 represents the extra contributed by the City and the District.

Total operating expenses for 2014, 2013 and 2012 were \$2.8 million, \$2.8 million and \$2.5 million, respectively. The 2014 operating expenses were decreased by \$69,803 from the 2013 expenses. In contrast, the 2013 operating expenses increased by \$320,582 from the 2012 expenses. The decrease in expenses was due to the reclaimed water capital project. The decrease of \$4,563 in non-operating expenses in 2014 was due to loan interest reduction.

Notes to the basic financial statements

The notes to the Facility’s basic financial statements can be found on pages 13-31 of this report. These notes provide additional information that is essential to a full understanding of the basic financial statements.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets

The Facility’s investment in capital assets as of December 31, 2014, amounted to \$22,725,786 (net of accumulated depreciation). The Facility’s investment in capital assets includes land, construction in progress, structures and improvements, plant equipment, tools and vehicles. The total decrease of the Facility’s investment in capital assets for the current year was 3.4%. The change in capital assets is from accumulated depreciation.

31-Dec	<u>Capital Assets, Net</u>		
	2014	2013	2012
Land	\$ 55,520	\$ 55,520	\$ 55,520

aka South Kitsap Water Reclamation Facility
Management Discussion & Analysis
For the Years Ending December 31, 2014 and 2013

Additional information on the Facility’s capital assets can be found in Note 3 of this report.

Long-term debt

The construction cost of the Facility expansion was approximately \$21.5 million. The City of Port Orchard applied for and received a Public Works Trust Fund (PWTF) loan in 2002 for \$10 million. Another PWTF loan in the amount of \$6.8 million was applied for and received in 2004.

The City of Port Orchard was the lead agency on the wastewater treatment plant expansion project, and is the signatory on both of these loans. The project and related debt was turned over to the Facility on December 31, 2007. Each loan is for twenty (20) years. Loan repayment is scheduled by the PWTF, and debt payments are being made by the Facility. The City and District have approved using part of the wastewater treatment capital fees collected by each entity to assist with the annual debt payments on the PWTF loans. In 2014, the City and District each contributed \$150,000 from these capital fees into the Facility’s Operating Fund. Balances owing on the loans, as of December 31, are as follows:

	2014	2013
PW-02-691-043 Facility Expansion Loan #1	\$4,420,761	\$4,973,356
PW-04-691-056 Facility Expansion Loan #2	\$3,600,000	\$3,960,000
Compensated Absences	\$ 131,615	\$ 128,558

Additional information on the Facility’s long-term debt can be found in Note 4 of this report.

CASH FLOW

The Facility expects to see minimal increases in sewage flows to the Facility over the next year. The share of the operation costs of the Facility are computed on an ERU basis (1 ERU equals 180 gallons of water used per day for commercial accounts, and each home or apartment unit represent one ERU). The ERU costs in 2014 and 2013 were \$22.50. These are adjusted each year as needed. The cash flow contributions from both the City and District are expected to meet the needs of the Facility operations for the coming year. In accordance with the District’s financial management policies, the District strives to maintain adequate fund balance and reserves for the Facility in order to provide sufficient cash flows to meet operating and capital expenses, while also providing the financial ability to address economic downturn and system emergencies. As a result, the District works to maintain fund balances for the Facility of no less than 15% (55 days) of total operating expenses to provide sufficient cash flow to meet daily operating expenses and cover debt service payments.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Management Discussion & Analysis
For the Years Ending December 31, 2014 and 2013

FUTURE YEARS BUDGETARY IMPACTS

The Facility experienced continued slow growth in wastewater treatment and discharge in 2014 due to the community's slow economy and water conservation. It is anticipated that there will not be a significant increase of wastewater flow volumes in the Facility due to the projected limited growth in new housing units or commercial activity over the next few years. During this economic slowdown, the Facility is continuing to strive to refine its operational procedures and seek means to reduce operational expenses and debt.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Facility's finances for all those with an interest in the financial health of the Facility. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the General Manager, West Sound Utility District, 2924 SE Lund Ave., Port Orchard, WA 98366.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING AND FINANCIAL POLICIES

The accounting policies of the South Kitsap Water Reclamation Facility (Facility) conform to generally accepted accounting principles (GAAP) as applicable to proprietary funds of governments. This and consecutive statements are reflected in the accompanying financial statements (including notes to financial statements).

The following is a summary of the most significant policies (including identification of those policies which result in material departures from the generally accepted accounting principles).

A. Reporting Entity

The Facility is a subdivision of the City of Port Orchard (City) and West Sound Utility District (District) that operates with oversight by a six-member Sewer Advisory Board comprised of three Council members and three District Commissioners. As required by generally accepted accounting principles, management has considered all potential component units in defining the reporting entity. The Facility has no component units.

B. Basis of Accounting And Presentation

The accounting records of the Facility are maintained in accordance with methods prescribed by the State Auditor under the authority of Chapter 43.09 RCW. The Facility uses the *Uniform System of Accounts for Class B Utilities*.

The Facility's "proprietary funds" ("Enterprise Utilities" and "Internal Service" funds) are accounted for using the full-accrual basis of accounting for Facility where revenues are recognized when earned and expenses are recognized when incurred. Capital asset purchases are capitalized and long-term liabilities are accounted for in the appropriate funds.

The Facility distinguishes between operating revenues and expenses from non-operating items. Operating revenues and expenses are derived from the sewer services provided to the City and District. Operating expenses include the cost of providing these sewer services as well as depreciation on our capital assets. All revenues and expenses not meeting the above criteria are reported as non-operating revenues and expenses. Unbilled receivables are recorded at year-end. Other income includes gains and losses from disposal of capital assets.

C. Financial Management Policies

The Board of Commissioners has adopted comprehensive financial management policies which are reviewed and updated during the District's annual or biennial budget process. The financial health and welfare of the District is highly dependent upon establishing and maintaining sound, financial-planning objectives and strategies of implementation. As a result, the implementation of these policies provides direction in the decision-making process of the District's Board of Commissioners and District administration while operating to provide stability of changing service and financial conditions. Such policies

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

enable District officials to protect the public interest and ensure trust and confidence in the District’s management of water and wastewater operations and assets. The District’s financial management policies include the following components: financial philosophies; budget process; basis of accounting and budgeting; accounting financial reporting, forecasting, information system integrity and auditing policies; operating budget policies: revenue and expenditure policies; capital improvement policies; utility fund policies; internal service fund policies; investment policies and cash management; and debt management policies.

D. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Facility considers all highly liquid investments with a maturity of three months or less purchased to be cash equivalents.

E. Capital Assets

See Note (3)

F. Restricted Funds

There are no restricted funds.

G. Receivables

The policy for writing off uncollectible receivables is made by the District’s Board of Commissioners.

H. Investments

See Note (6)

I. Compensated Absences

Compensated absences are absences for which employees will be paid, such as vacation and sick leave. Additionally, employees may accumulate up to 24 hours of comp time earned during the calendar year. The Facility records unpaid leave for compensated absences as an expense and liability when incurred.

Vacation pay may be accumulated up to a maximum accrual of 240 hours and may be carried over to the next calendar year. Accrued vacation pay is payable upon an employee taking a vacation or upon resignation, retirement, or death. Sick leave in excess of one thousand forty (1040) hours of the current month shall be deposited into a VEBA account for the employee. Annual leave and sick leave are payable as follows:

Retirement (vacation)	100% of current balance, not to exceed 240 hours
Retirement (sick leave)	50% not to exceed of 1040 hours
Death (vacation)	100% of current balance
Death (sick leave)	50% not to exceed of 1040 hours

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

Voluntary Resignation (vacation)	100% of current balance
Voluntary Resignation (sick leave)	25%

J. Long-Term Debt
 See Note (4)

K. Infrastructure
 Governmental Accounting Standards Board Statement No. 34 allows two methods of reporting for a local government. One is called the “modified approach” and the other is based upon “historical cost”. The Facility has always reported its infrastructure on a historical cost basis with a corresponding offset as accumulated depreciation. The Facility will continue to use “historical cost” as the basis of reporting its infrastructure and use straight-line depreciation as the methods to depict the value of the asset being used over time.

NOTE 2 – JOINT VENTURE

In 1983, the City and the District (Formerly Karcher Creek Sewer District) entered into an interlocal cooperative agreement and created a utility local improvement district (ULID) to help finance construction a jointly-owned wastewater treatment plant. Construction of the Facility was completed in 1985. The participants pay their share of the operating and maintenance expenses based on their portion of flow into the facility. The cost sharing for 2014 was 48% for the City and 52% for the District, where each entity contributes an adequate amount of revenue generated from the sewer utility customer rates to fund the Facility’s operational costs. In addition, the City and District also transfer each year an established amount of general facility charges to assist in funding the Facility’s debt obligations. In 2014, the District and City negotiated and executed a new interlocal agreement which resulted in extending the responsibilities of the District in managing and operating the Facility, in addition to resolving issues pertaining to property and asset ownership, liability and insurance.

A Sewer Advisory Board, comprised of the three City Council members and three District Commissioners, review and approves the revenue allocation formula each year to ensure that the revenue contributions from the City and District are equitable and the amount is sufficient to cover the Facility’s current and future maintenance, capital, debt obligation and operations expenses. In accordance with the joint venture agreement, the District manages the operations of the Facility.

A major expansion of the Facility was approved in 2002 and cost approximately \$21.5 million. This project was approved for a \$10 million Public Works Trust Fund Loan (PWTF Loan #1) in 2002. Another Public Works Trust Fund Loan was approved in 2004 for \$6.8 million (PWTF Loan #2). The City was the lead agency for the expansion project. The City transferred the related assets and liabilities to the Facility upon completion of the project on December 31, 2007. On that date, all assets and liabilities related to the expansion project were included in the financial statements of the Facility.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

The District maintains separate accounting records and prepares separate financial statements of the operations of the Facility. The District's Finance Department provides accounting and financial support services to the Facility, and account and finance statements for the Facility can be obtained at the District office, 2924 SE Lund Ave., Port Orchard, WA or the District's website at www.wsud.us.

NOTE 3 – CAPITAL ASSETS

Major expenses for capital assets, including capital leases and major repairs that increase useful lives, are capitalized. The District capitalizes purchases that meet these criteria when the individual cost threshold exceeds \$5,000, as set forth in Resolution 337-12, "Capital Asset Policy". Maintenance, repairs, and minor renewals are accounted for as expenses when incurred.

The Facility in service and other capital assets are recorded at cost where historical cost is known. Where historical cost is not known, assets are recorded at fair market value. Donations by developers and customers are recorded at donor cost.

The original cost of operating property retired or disposed of and the cost of installation, less salvage, is charged to accumulated depreciation. However, in the case of the sale of a significant operating unit or system, the original cost is removed from the Facility accounts, accumulated depreciation is charged with the accumulated depreciation related to the property sold, and the net gain or loss on disposition is credited or charged to income.

Depreciation was computed on the straight-line method. The initial depreciation on the Facility is recorded in the year subsequent to purchase. Structures and Improvements have a useful life of thirty five to fifty years, Plant Equipment has ten to fifteen years and Vehicles have ten years. Preliminary costs incurred for proposed projects are deferred pending construction. Costs relating to projects ultimately constructed are transferred to the Facility; charges that relate to abandoned projects are expensed. In 2014, the Facility adjusted all capital asset salvage value to zero. The assets were depreciated without salvage value deductions.

The Facility's activity for the year ending December 31, 2014 was as follows:

NOTE 4 – LONG-TERM DEBT AND LIABILITIES

A. Long-Term Debt

The Facility has two Public Work Trust Fund loans for its expansion. Loan #1 and #2 will mature in 2022 and 2024. Both loans were issued at interest rates of one half percent

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

(0.5%). The annual requirements to amortize all debts outstanding as of December 31, 2014, including interest, are as follows:

Year Ending December 31	Principal	Interest	Total
2015	912,595	40,104	952,699
2016	912,595	35,541	948,136

Total	9,061,913	3,057	912,595	8,152,375	915,582
Less Current Portion				\$ 915,582	
Total Long-Term Liabilities				\$7,236,793	

During the year ended December 31, 2013 the following changes occurred in long-term liabilities:

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

	Beginning Balance 1/1/2013	Additions	Reduction	Ending Balance 12/31/2013	Due within One Year 2014
PWTF Loan #1	5,525,951		552,595	4,973,356	552,595
PWTF Loan #2	4,320,000		360,000	3,960,000	360,000
Compensated Absences	204,847	21,733	98,022	128,558	289
Total	10,050,798	21,733	1,010,617	9,061,914	912,884
Less Current Portion				\$ 912,884	
Total Long-Term Liabilities				\$8,149,030	

NOTE 5 – CONSTRUCTION IN PROGRESS

The Facility's construction in progress represents expenses to date on projects whose authorizations total \$162,000. The Facility had active construction projects as of Dec. 31, 2014, as follows:

Project Description	Project Budget	Expended 12/31/2014	Required Future Financing
Ecology Block Wall	90,000	67,829	None
Upper Driveway Repair	32,000	18,528	None
Support Centrate Line	40,000	34,681	None
Total	\$ 162,000	\$ 121,037	

NOTE 6 – DEPOSITS AND INVESTMENTS

A. Deposits

Kitsap County is the Treasurer for the Facility's funds. The Facility's deposits with the Kitsap County Treasurer are covered by Federal Depository Insurance (FDIC) or by collateral held in a multiple financial institution collateral pool administered by the Washington Public Deposit Protection Commission.

B. Investments

As required by state law, all investments of the Facility's funds must be obligations of the U.S. Government, U.S. agency issues, obligations of the State of Washington, general obligations of Washington State municipalities, the Kitsap County's Investment Pool, or

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

certificate of deposit with Washington State banks and savings and savings and loan institutions. All temporary investments are stated at fair value.

As of December 31, 2014, the Facility has the following cash and investments:

	Cash	Investments	Total
Washington State Investment Pool		\$ 2,209,576	\$ 2,209,576
Kitsap County Treasurer	\$ 36,712		\$ 36,712
Petty Cash	\$ 100		\$ 100
Total	\$ 36,812	\$ 2,209,576	\$ 2,246,388

As of December 31, 2013, the Facility has the following cash and investments:

	Cash	Investments	Total
Washington State Investment Pool		\$ 1,839,706	\$ 1,839,706
Kitsap County Treasurer	\$ 120,524		\$ 120,524
Petty Cash	\$ 100		\$ 100
Total	\$ 120,624	\$ 1,839,706	\$ 1,960,330

Custodial credit risk is the risk that in event of a failure of the counterparty to an investment transaction the Facility would not be able to recover the value of the investment or collateral securities. The District only has investments for the Facility that are held by the Kitsap County Investment Pool.

NOTE 7 – PENSION PLANS

Substantially all (city/county/district/) full-time and qualifying part-time employees participate in one of the following statewide retirement systems administered by the Washington State Department of Retirement Systems, under cost-sharing multiple-employer public employee defined benefit retirement plans. The Department of Retirement Systems (DRS), a department within the primary government of the State of Washington, issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for each plan. The DRS CAFR may be obtained by writing to: Department of Retirement Systems, Communications Unit, P.O. Box 48380, Olympia, WA 98504-8380; or it may be downloaded from the DRS website at www.drs.wa.gov.

Public Employees' Retirement System (PERS) Plans 1, 2, and 3

Plan Description

The Legislature established PERS in 1947. Membership in the system includes: elected officials; state employees; employees of the Supreme, Appeals, and Superior courts; employees of legislative committees; employees of district and municipal courts; and employees of

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

local governments. Membership also includes higher education employees not participating in higher education retirement programs. Approximately 49 percent of PERS salaries are accounted for by state employment. PERS retirement benefit provisions are established in Chapters 41.34 and 41.40 RCW and may be amended only by the State Legislature.

PERS is a cost-sharing multiple-employer retirement system comprised of three separate plans for membership purposes: Plans 1 and 2 are defined benefit plans and Plan 3 is a defined benefit plan with a defined contribution component.

PERS members who joined the system by September 30, 1977 are Plan 1 members. Those who joined on or after October 1, 1977, and by either February 28, 2002 for state and higher education employees or August 31, 2002, for local government employees, are Plan 2 members unless they exercised an option to transfer their membership to Plan 3. PERS members joining the system on or after March 1, 2002, for state and higher education employees or September 1, 2002 for local government employees have the irrevocable option of choosing membership in either PERS Plan 2 or Plan 3. The option must be exercised within 90 days of employment. Employees who fail to choose within 90 days default to Plan 3.

PERS is comprised of and reported as three separate plans for accounting purposes: Plan 1, Plan 2/3, and Plan 3. Plan 1 accounts for the defined benefits of Plan 1 members. Plan 2/3 accounts for the defined benefits of Plan 2 members, and the defined benefit portion of benefits for Plan 3 members. Plan 3 accounts for the defined contribution portion of benefits for Plan 3 members. Although members can only be a member of either Plan 2 or Plan 3, the defined benefit portions of Plan 2 and Plan 3 are accounted for in the same pension trust fund. All assets of this Plan 2/3 may legally be used to pay the defined benefits of any of the Plan 2 or Plan 3 members or beneficiaries, as defined by the terms of the plan. Therefore, Plan 2/3 is considered to be a single plan for accounting purposes.

PERS Plan 1 and Plan 2 retirement benefits are financed from a combination of investment earnings and employer and employee contributions. Employee contributions to the PERS Plan 1 and Plan 2 defined benefit plans accrue interest at a rate specified by the Director of DRS. During DRS' Fiscal Year 2013, the rate was five and one-half percent compounded quarterly. Members in PERS Plan 1 and Plan 2 can elect to withdraw total employee contributions and interest thereon, in lieu of any retirement benefit, upon separation from PERS-covered employment.

PERS Plan 1 members are vested after the completion of five (5) years of eligible service.

PERS Plan 1 members are eligible for retirement from active status at any age with at least thirty (30) years of service, at age 55 with twenty five (25) years of service, or at age 60 with at least five (5) years of service. Plan 1 members retiring from inactive status prior to the age of 65 may receive actuarially reduced benefits.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

The monthly benefit is two percent (2%) of the average final compensation (AFC) per year of service, but the benefit may not exceed sixty percent (60%) of the AFC. The AFC is the monthly average of the twenty four (24) consecutive highest-paid service credit months.

PERS Plan 1 retirement benefits are actuarially reduced to reflect the choice, if made, of a survivor option.

Plan 1 members may elect to receive an optional COLA that provides an automatic annual adjustment based on the Consumer Price Index. The adjustment is capped at three percent (3%) annually. To offset the cost of this annual adjustment, the benefit is reduced.

PERS Plan 1 provides duty and non-duty disability benefits. Duty disability retirement benefits for disablement prior to the age of 60 consist of a temporary life annuity. The benefit amount is \$350 a month, or two-thirds of the monthly AFC, whichever is less. The benefit is reduced by any workers' compensation benefit and is payable as long as the member remains disabled or until the member attains the age of 60, at which time the benefit is converted to the member's service retirement amount.

A member with five years of covered employment is eligible for non-duty disability retirement. Prior to the age of 55, the benefit amount is two percent (2%) of the AFC for each year of service reduced by two percent (2%) for each year that the member's age is less than 55. The total benefit is limited to 60 percent of the AFC and is actuarially reduced to reflect the choice of a survivor option. Plan 1 members may elect to receive an optional COLA amount (based on the Consumer Price Index), capped at three percent (3%) annually. To offset the cost of this annual adjustment, the benefit is reduced.

PERS Plan 2 members are vested after the completion of five (5) years of eligible service. Plan 2 members are eligible for normal retirement at the age of 65 with five years of service. The monthly benefit is two percent (2%) of the AFC per year of service. The AFC is the monthly average of the 60 consecutive highest-paid service months. There is no cap on years of service credit; and a cost-of-living allowance is granted (based on the Consumer Price Index), capped at three percent (3%) annually.

PERS Plan 2 members who have at least twenty (20) years of service credit, and are 55 years of age or older, are eligible for early retirement with a reduced benefit. The benefit is reduced by an early retirement factor (ERF) that varies according to age, for each year before age 65.

PERS Plan 2 members who have 30 or more years of service credit and are at least 55 years old can retire under one of two provisions, if hired prior to May 1, 2013:

- With a benefit that is reduced by three percent (3%) of each year before age 65: or
- With a benefit that has a smaller (or not) reduction (depending on age) that imposes stricter return-to-work rules.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

PERS Plan 2 members hired on or after May 1, 2013 have the option to retire early by accepting a reduction of five percent (5%) for each year of retirement before age 65. This option is available only to those who are age 55 or older and have at least 30 years of service.

PERS Plan 2 retirement benefits are actuarially reduced to reflect the choice, if made, of a survivor option.

PERS Plan 3 has a dual benefit structure. Employer contributions finance a defined benefit component and member contributions finance a defined contribution component. As established by Chapter 41.34 RCW, employee contribution rates to the defined contribution component range from five percent (5%) to fifteen percent (15%) of salaries, based on member choice. Members who do not choose a contribution rate default to a five percent (5%) rate. There are currently no requirements for employer contributions to the defined contribution component of PERS Plan 3.

PERS Plan 3 defined contribution retirement benefits are dependent upon the results of investment activities. Members may elect to self-direct the investment of their contributions. Any expenses incurred in conjunction with self-directed investments are paid by members. Absent a member's self-direction, PERS Plan 3 contributions are invested in the Retirement Strategy Fund that assumes the member will retire at age 65.

For DRS' Fiscal Year 2013, PERS Plan 3 employee contributions were \$99 million, and plan refunds paid out were \$69.4 million.

The defined benefit portion of PERS Plan 3 provides members a monthly benefit that is one percent (1%) of the AFC per year of service. The AFC is the monthly average of the sixty (60) consecutive highest-paid service months. There is no cap on years of service credit, and Plan 3 provides the same cost-of-living allowance as Plan 2.

Effective June 7, 2006, PERS Plan 3 members are vested in the defined benefit portion of their plan after ten years of service; or after five years of service, if twelve months of that service are earned after age 44; or after five service credit years earned in PERS Plan 2 by June 1, 2003. Plan 3 members are immediately vested in the defined contribution portion of their plan.

Vested Plan 3 members are eligible for normal retirement at age 65, or they may retire early with the following conditions and benefits:

- If they have at least ten (10) service credit years and are at least 55 years old, the benefit is reduced by ERF that varies with age, for each year before age 65.
- If they have thirty (30) service credit years, and are at least 55 years old, and were hired after May 1, 2013, they have the choice of a benefit that is reduced by 3 percent for each year before age 65; or a benefit with a smaller (or no) reduction factor (depending on age) that imposes stricter return-to-work rules.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

- If they have thirty (30) service credit years, are at least 55 years old, and were hired after May 1, 2013, they have the option to retire early by accepting a reduction of five percent (5%) for each year before age 65.

PERS Plan 3 benefits are actuarially reduced to reflect the choice, if made, of a survivor option.

PERS Plan 2 and Plan 3 provide disability benefits. There is no minimum amount of service credit required for eligibility. The Plan 2 monthly benefit amount is two percent (2%) of the AFC per year of service. For Plan 3, the monthly benefit amount is one percent (1%) of the AFC per year of service. These disability benefit amounts are actuarially reduced for each year that the member's age is less than 65, and to reflect the choice of a survivor option. There is no cap on years of service credit, and a cost-of-living allowance is granted (based on the Consumer Price Index) capped at three percent(3%) annually.

PERS members meeting specific eligibility requirements have options available to enhance their retirement benefits. Some of these options are available to their survivors.

A one-time duty-related death benefit is provided to the beneficiary or the estate of a PERS member who dies as a result of injuries sustained in the course of employment, or if the death resulted from an occupational disease or infection that arose naturally and proximately out of the member's covered employment, if found eligible by the Department of Labor and Industries.

There are 1,176 participating employers in PERS. Membership in PERS consisted of the following as of the latest actuarial valuation date for the plans of June 30, 2013:

Retirees and Beneficiaries Receiving Benefits	85,328
Terminated Plan Members Entitled to But Not Yet Receiving Benefits	31,047
Active Plan Members Vested	150,706
Active Plan Members Non-Vested	101,191
Total	368,272

Funding Policy

Each biennium, the state Pension Funding Council adopts Plan 1 employer contribution rates, PERS Plan 2 employer and employee contribution rates, and PERS Plan 3 employer contribution rates. Employee contribution rates for Plan 1 are established by statute at six percent (6%) for state agencies and local government unit employees, and at 7.5% for state government elected officials. The employer and employee contribution rates for Plan 2 and the employer contribution rate for Plan 3 are developed by the Office of the State Actuary to fully fund Plan 2 and the defined benefit portion of Plan 3. Under PERS Plan 3, employer contributions finance the defined benefit portion of the plan and member contributions finance the defined contribution portion. The Plan 3 employee contribution rates range from five percent (5%) to fifteen percent(15%).

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

The methods used to determine the contribution requirements are established under state statute in accordance with Chapter 41.40 and 41.45 RCW.

The required contribution rates expressed as a percentage of current-year covered payroll, as of December 31, 2014, were as follows:

	PERS Plan 1	PERS Plan 2	PERS Plan 3
Employer*	9.21% **	9.21% **	9.21% ***
Employee	6.00% ****	4.92% ****	*****

- * The employer rates include the employer administrative expense fee currently set at 0.18%.
- ** The employer rate for state elected officials is 13.73% for Plan 1 and 9.21% for Plan 2 and Plan 3.
- *** Plan 3 defined benefit portion only
- **** The employee rate for state elected officials is 7.50% for Plan 1 and 4.92% for Plan 2.
- ***** Variable form 5.0% minimum to 15.0% maximum based on rate selected by the PERS 3 member.

The Facility and the employees made the required contributions. The Facility's required contributions for the year ending December 31, 2014 were as follows:

	PERS Plan 1	PERS Plan 2	PERS Plan 3
2014	N/A	\$77,753	\$9,413
2013	N/A	\$69,411	\$8,263
2012	N/A	\$66,000	\$5,668

NOTE 8 – RISK MANAGEMENT

A. Water and Sewer Risk Management Pool

Funded from the Facility's Operating budget, the District provides insurance for liability claims and the Facility's assets, except property coverage that had been provided by the City until August, 2014. In August, the District commenced providing property insurance for the Facility. The District is a member of the Water and Sewer Risk Management Pool (Pool). Chapter 48.62 RCW authorizes the governing body of any one or more governmental entities to form together into or join a pool or organization for the joint purchasing of insurance, and/or joint self-insuring, and/or joint hiring or contracting for risk management services to the same extent that they may individually purchase insurance, self-insurance, or hire or contract for risk management services. An agreement to form a pooling arrangement was made pursuant to the provisions of Chapter 39.34 RCW, the Interlocal Cooperation Act. The Pool was formed in November 1987 when water and sewer districts in the State of Washington joined together by signing an Interlocal Governmental Agreement to pool their self-insured losses and jointly purchase insurance and

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

administrative services. The Pool currently has 68 members. The Pool’s fiscal year is November 1st through October 31st.

The Pool allows members to jointly purchase insurance coverage, establish a plan of self-insurance coverage, and provide related services, such as risk management and loss prevention. The Pool provides the following forms of group purchased insurance coverage for its members: Property (including Building, Electronic Data Processing, Boiler and Machinery, and Mobile Equipment); General Liability; Automotive Liability; Excess Liability, Crime; Public Officials Liability; Identity Fraud Reimbursement Program; and bonds of various types. All coverages are on an “occurrence” basis.

Members make an annual contribution to fund the Pool. The Pool purchases insurance policies from unrelated underwriters as follows:

TYPE OF COVERAGE	MEMBER DEDUCTIBLE	SELF-INSURED RETENTION	EXCESS LIMITS
Property Loss:			
Buildings and Contents	\$1,000 - \$10,000 See (C) below	\$25,000	\$1,000,000,000
Flood	See (A) below	See (A) below	\$50,000,000

aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

Pool members are responsible for a deductible on each coverage and the Pool is responsible for the remainder of the self-insured retention listed in the table above except where noted as follows. The insurance carriers then cover the loss to the maximum limit of the policy. Each member is responsible for the full deductible applicable to the perils of earthquake and flood (the Pool is not responsible for any deductible or self-insured retention for earthquake and flood claims). Each member is also responsible for the full deductible applicable to the Cyber Liability, and that part of a Boiler & Machinery deductible which exceeds \$25,000. Under the 2014 schedule of deductibles for member districts, the District chose a deductible level of \$10,000. In past three years, the Plant had no settlements exceeded insurance coverage.

Upon joining, the members contract to remain in the Pool for one full policy period. Following completion of one full policy period, members must give a six-month notice before terminating participation (e.g. to withdraw from the Pool on November 1, 2015, written notice must be in possession of the Pool by April 30, 2015). The Interlocal Governmental Agreement is renewed automatically each year. Even after termination of relationship with the Pool, a member is still responsible for contributions to the Pool for any unresolved, unreported, and in process claims, for the period that the District was a signatory to the Interlocal Governmental Agreement.

The Pool is fully funded by its member participants. Claims are filed by members with the Pool who determines coverage and performs claims adjustment in consultation with Arcadia Claims Services.

The Pool is governed by a Board of Directors, which is comprised of one designated representative from each participating member. An Executive Committee is elected at the annual meeting, and is responsible for overseeing the business affairs of the Pool and providing policy direction to the Pool's Executive Director.

This summary of coverage is not confirmation of coverage or insurance and does not add to, extend, amend, change or alter any coverage in any actual memorandum of coverage, or policy of insurance you may have. All existing memorandum of coverage and insurance policy terms, conditions, exclusions, and limitations apply. For specific information regarding your coverage, please refer to the memorandum of coverage or insurance policies themselves.		

B. Association of Washington Cities Risk Management Service Agency

The City of Port Orchard, which provides insurance for the Facility properties (\$36,771,875) from January through August, is a member of the Association of Washington Cities Risk Management Service Agency (AWC RMSA). Chapter 48.62 RCW authorizes the governing body of any one or more governmental entities to form together into or join a pool or organization for the joint purchasing of insurance, and/or joint self-insuring, and/or joint hiring or contracting for risk management services to the same extent that they may individually purchase insurance, self-insure, or hire or contract for risk management services. An agreement to form a pooling arrangement was made pursuant to the provisions of Chapter 39.34 RCW, the Interlocal Cooperation Act. The AWC RMSA was formed on January 1, 1989 when 32 municipalities in the State of Washington joined together by signing an Interlocal Governmental Agreement to pool their self-insured losses and jointly purchase insurance and administrative services. As of December 31, 2014, 94 municipalities/entities participate in the AWC RMSA pool.

MCAG No. 0715 Joint Wastewater Treatment Facility
aka South Kitsap Water Reclamation Facility
Notes to Financial Statements
For the Years Ending December 31, 2014 and 2013

The AWC RMSA allows members to establish a program of joint insurance and provides risk management services to all members. All coverages are on an occurrence basis. The AWC RMSA provides all risk property, comprehensive crime, general liability, automobile liability, police liability, public officials' liability, employee fidelity and faithful performance, and equipment breakdown insurance coverage. Equipment breakdown is included with the property insurance carrier and fidelity (crime) coverage is a stand-alone policy which the AWC RMSA procures for its members. The AWC RMSA also allows members with airports to group purchase airport liability coverage.

Members pay an annual assessment to the AWC RMSA. The AWC RMSA is responsible for payment of all covered causes of loss against the jurisdiction above the stated retention. All members in the AWC RMSA have \$10 million in both per occurrence and aggregate liability limits. For the first \$1 million, AWC RMSA is self-insured for its Self-Insured Retention (SIR) of \$250,000, per occurrence, and is reinsured by Berkley Public Entity of \$750,000 for the additional \$750,000. For the \$9 million in excess coverage limits, an excess property coverage is purchased from Starr Indemnity & Liability Company. The excess property coverage is purchased through Lexington Insurance Company using the Pool's broker, Arthur J. Gallaher Risk Management Services. In 2014, AWC RMSA carried a retention of \$50,000 and limits up to \$250 million. Since AWC RMSA is a cooperative program, there is joint liability among the participating members.

Member contract to remain in the AWC RMSA pool for a minimum of one year and must give a one-year notice before terminating participation. Even after termination, a member is still responsible for contributions to the Pool for any unresolved, unreported, and in-process claims for the period they were signatory to the Interlocal Governmental Agreement.

The AWC RMSA establishes a loss fund for both reported and unreported insured events, which includes estimated of both future payments of losses and related claim adjustment expenses.

In accordance with WAC 200.100.02023, the AWC RMSA is governed by a board of directors which is comprised of elected officials of participating members.

NOTE 9 – SUBSEQUENT EVENTS

Property Title Transfer. As a result of the April 22, 2014 Interlocal Agreement, the Plant management and Operations conducted a review of the Plant property ownership history. To correct past scrivener's errors and to clear title, West Sound Utility District, the City of Port Orchard, Kitsap Transit and the State Department of Veteran Affairs will execute the legal transfer of properties to the Plant in 2016.

ABOUT THE STATE AUDITOR'S OFFICE

The State Auditor's Office is established in the state's Constitution and is part of the executive branch of state government. The State Auditor is elected by the citizens of Washington and serves four-year terms.

We work with our audit clients and citizens to achieve our vision of government that works for citizens, by helping governments work better, cost less, deliver higher value, and earn greater public trust.

In fulfilling our mission to hold state and local governments accountable for the use of public resources, we also hold ourselves accountable by continually improving our audit quality and operational efficiency and developing highly engaged and committed employees.

As an elected agency, the State Auditor's Office has the independence necessary to objectively perform audits and investigations. Our audits are designed to comply with professional standards as well as to satisfy the requirements of federal, state, and local laws.

Our audits look at financial information and compliance with state, federal and local laws on the part of all local governments, including schools, and all state agencies, including institutions of higher education. In addition, we conduct performance audits of state agencies and local governments as well as [fraud](#), state [whistleblower](#) and [citizen hotline](#) investigations.

The results of our work are widely distributed through a variety of reports, which are available on our [website](#) and through our free, electronic [subscription](#) service.

We take our role as partners in accountability seriously, and provide training and technical assistance to governments, and have an extensive quality assurance program.
