**MANAGEMENT DISCUSSION & ANALYSIS**

As Management of the South Kitsap Water Reclamation Facility (Facility), we offer readers of the financial statements this narrative overview and analysis of the Facility's financial activities for the fiscal years ended December 31, 2022. The intent of this discussion and analysis is to review the Facility's financial performance as a whole. This MD&A provides an overview of the Facility's financial records. The data in this financial report also identifies any material deviation from the financial plan and adopted annual budgets.

We encourage readers of this document to consider the information presented here in conjunction with the financial statements and notes to the financial statements which immediately follow this discussion.

**FINANCIAL INFORMATION**

The Facility is jointly owned by the City of Port Orchard (City) and West Sound Utility District (District). In 1983, the City and District entered into an interlocal partnership agreement for the management and operation of the joint wastewater treatment facility. Under the terms and conditions of this agreement, a Sewer Advisory Committee was established to plan for future Facility capital improvements, recommend an appropriate level of operation and capital funding, and oversee the preparation of the annual budget for the City's and District's final approval.

The Facility provides secondary wastewater treatment of City and District wastewater utility customers' wastewater. The mission of the Facility has expanded from merely wastewater treatment to reclamation. The goal of the Facility is to achieve higher levels of sustainability.

The District is responsible for the daily operation and maintenance of the Facility. Cost containment and reduction is a priority for the Facility. The Facility had obtained grants from Puget Sound Energy to reduce electrical demand with more efficient blowers, improved pump controls, disk thickener, booster pumps, HVAC modifications, process control instrumentation, lighting fixtures, and solar heating of the water supply. This benefits both the City and District. Cost sharing of the operations and maintenance is based on the number of equivalent residential units (ERUs) for each entity. In 2022, the cost-sharing was 47.92% contribution by the City and 52.08% from the District, which was a 1.31% increase from the District's contribution in 2021.

The Facility's financial statements are prepared as a joint venture of the City and District. The Facility operates as a political subdivision of the two municipalities. The Facility uses fund accounting to demonstrate and ensure compliance with finance-related legal requirements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities (i.e., sewer treatment). The Facility reports its activities as an *enterprise fund*, which is a type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities. As such, the Facility uses the enterprise fund to

**Joint Wastewater Treatment Facility**  
**aka South Kitsap Water Reclamation Facility**  
*Management Discussion & Analysis*  
*For the Year Ending December 31, 2022*

---

account for its activities. The financial statements are presented in a manner similar to a private-sector business.

The District's Board of Commissioners adopted an annual budget as a measure of monitoring revenues and controlling expenses. The Commissioners also use the budget as a financial planning tool for the District's future needs. Also, in 2012 the Board of Commissioners approved Resolution 403-12 "Financial Management Policies" and Resolution 337-12, "Capital Assets Policy." These Financial Management Policies, which are reviewed and updated with the adoption of the Facility budget, direct the decision-making process of the District's Board of Commissioners and District administration while operating to provide stability to changing services and financial conditions. The implementation of wise fiscal policies enables the Facility officials to protect the public interest and ensure public trust and confidence in the Facility's management of wastewater treatment operations.

The Facility's Financial Statements were prepared on the full accrual basis of accounting in conformity with Generally Accepted Accounting Principles (GAAP). The Facility uses fund accounting to demonstrate and ensure compliance with finance-related legal requirements.

#### **Financial Highlights**

- The assets and deferred outflows of the Facility exceeded its liabilities and deferred inflows at the close of the 2022 fiscal year by \$22,623,659. Of this amount, \$4,322,655 was depicted as unrestricted and may be used to meet the Facility's ongoing financial obligations. The Facility does not currently have any restricted net assets.
- From 2021 to 2022 the Facility's total net position increased by \$589,485, or 3%.
- The Facility's total long-term debt on capital facility loans decreased by \$912,595 during the fiscal year. As of December 31, 2022, the total outstanding debt was \$720,001.
- The Facility's total cash and cash equivalents was \$4,566,333, which increased by \$508,040 in 2022.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

The Facility's financial statements include two components: 1) the Facility's basic financial statements, and 2) the notes to the financial statements. This discussion and analysis are intended to serve as an introduction to the Facility's basic financial statements.

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
Management Discussion & Analysis  
For the Year Ending December 31, 2022**

---

**Condensed Financial Position Information**

The statement of net position presents information concerning the Facility's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. Net position is the difference between assets, deferred outflows of resources and liabilities, and deferred inflows of resources. Increases or decreases in net position may indicate, over time, if either the financial position of the Facility is improving or deteriorating.

The following condensed financial information provides an overview of the Facility's financial position for the fiscal years ended December 31, 2022, and 2021.

December 31	Net Position	
	2022	2021
Current Assets	4,741,029	4,208,946
Non-current Assets	18,974,659	20,287,169
Total Assets	\$ 23,715,688	\$ 24,496,115
Deferred Outflows of Resources	\$ 245,062	\$ 93,203
Current Liabilities	469,013	974,421
Non-current Liabilities	612,425	922,385
Total Liabilities	\$ 1,081,438	\$ 1,896,806
Deferred Inflows of Resources	\$ 255,654	\$ 658,339
Net Investment in Capital Assets	18,023,862	18,043,727
Restricted for Pension	277,142	96,286
Unrestricted	4,322,655	3,894,161
Total Net Position	\$ 22,623,659	\$ 22,034,174

The 2022 total net position was approximately \$23 million, which was an increase of three percent (3%) from 2021.

At the end of 2022, capital assets represent nearly 77.7% of total assets and in 2021 capital assets represent 80.3% of total assets. On December 31, 2022, and 2021, the Facility had non-current liabilities of \$612,425 and \$922,385, respectively. The decrease is due to the Facility making scheduled debt payments and pension liability increases.

The Facility's net investment in capital assets were approximately \$18 million on both December 31, 2022, and December 31, 2021. This capital asset value has decreased as asset depreciation and construction-in-progress projects reduction. The unrestricted net position represents the amount that may be used to meet the Facility's ongoing non-capital obligations.

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
Management Discussion & Analysis  
For the Year Ending December 31, 2022**

---

The overall financial position of the Facility has not significantly changed from the prior years. There are no restrictions, commitments, or other limitations that will significantly affect the availability of fund resources. The Facility reports positive balances in both categories of net positions.

**Summary of Operations and Changes in Net Position**

The statement of revenues, expenses, and changes in fund net positions shows how the Facility's net positions changed during the fiscal year 2022. These changes are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, some revenues and expenses reported in this statement will only affect future period cash flow (e.g., uncollected receivables).

The following is a condensed version of the Statement of Changes in Net Position for the Facility.

	<u>Change in Net Position</u>	
	2022	2021
Operating Revenue	3,371,518	3,394,982
Non-operating Revenue	52,755	11,822
Total Revenues	\$ 3,424,274	\$ 3,406,803
Operating Expenses	3,232,442	2,844,544
Non-operating Expenses	5,881	104,995
Total Expenses	\$ 3,238,324	\$ 2,949,539
Capital Contributions	403,535	400,000
Change in Net Position	\$ 589,485	\$ 857,264
Net Position, Beginning of Year	\$ 22,034,174	\$ 21,176,910
Net Position, End of Year	\$ 22,623,659	\$ 22,034,174

Total operating revenues for the Facility in both 2022 and 2021 were \$3.4 million.

Total operating expense for 2022 was \$3.2 million and 2021 was around \$2.8 million. The 2022 operating expenses increased by \$387,898 from the 2021 expenses.

**Notes to the Basic Financial Statements**

The notes to the Facility's basic financial statements can be found on pages 12 - 27 of this report. These notes provide additional information that is essential to a full understanding of the basic financial statements.

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
Management Discussion & Analysis  
For the Year Ending December 31, 2022**

---

**CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital Assets**

The Facility's capital assets as of December 31, 2022, amounted to approximately \$18 million (net of accumulated depreciation). The Facility's investment in capital assets includes land, construction in progress, structures and improvements, facility equipment, tools, and vehicles. The total decrease in the Facility's investment in capital assets for 2022 was 0.11%. The change in capital assets was from accumulated depreciation and construction in progress.

December 31	2022	2021
Land	\$ 309,540	\$ 309,540
Construction in Progress		67,653
Structures and Improvements	31,354,598	31,354,598
Plant Equipment	7,586,183	7,925,937
Tools and Equipment	135,369	137,861
Vehicles	110,030	110,030
Less: Accumulated Depreciation	(20,751,858)	(20,229,296)
Total Capital Assets, Net	<u>\$ 18,743,862</u>	<u>\$ 19,676,323</u>

Additional information on the Facility's capital assets can be found in Note 2 of this report.

**Long-Term Debt**

The construction cost of the Facility expansion was approximately \$21.5 million. The City of Port Orchard applied for and received a Public Works Trust Fund (PWTF) loan in 2002 for \$10 million. Another PWTF loan in the amount of \$6.8 million was applied for and received in 2004. The City of Port Orchard was the lead agency on the wastewater treatment facility expansion project and is the signatory on both of these loans. The project and related debt was turned over to the Facility on December 31, 2007. Each loan is for twenty (20) years. Loan repayment is scheduled by the PWTF and debt payments are being made by the Facility. The City and District have approved using part of the wastewater treatment capital fees collected by each entity to assist with the annual debt payments on the PWTF loans. In 2022, the City and District each contributed \$200,000 from these capital fees into the Facility's Operating Fund. Balances owing on the loans, as of December 31, are as follows:

	2022	2021
PW-02-691-043 Facility Expansion Loan #1		\$ 552,595
PW-04-691-056 Facility Expansion Loan #2	\$ 720,000	\$ 1,080,000

Additional information on the Facility's long-term debt can be found in Note 3 of this report.

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
*Management Discussion & Analysis  
For the Year Ending December 31, 2022***

---

**CASH FLOW**

The community served by the Facility experienced continued growth discharge in 2022. The share of the operation costs of the Facility are computed on an ERU basis (1 ERU equals 180 gallons of water used per day for commercial accounts, and each home or apartment unit represents one ERU). The ERU cost in 2022 was \$23.50. These are adjusted each year as needed. The cash flow contributions from both the City and District are expected to meet the needs of the Facility operations for the coming year. In accordance with the District's financial management policies, the District strives to maintain adequate fund balance and reserves for the Facility in order to provide sufficient cash flows to meet operating and capital expenses, while also providing the financial ability to address economic downturns and system emergencies. As a result, the District works to maintain fund balances for the Facility of no less than 15% (55 days) of total operating expenses to provide sufficient cash flow to meet daily operating expenses and cover debt service payments.

**FUTURE YEARS BUDGETARY IMPACTS**

The Facility expects to see some increases in sewage flows over the next year due to the community's economic growth. It is anticipated that there will be some increase in wastewater flow volumes in the Facility due to the projected growth in new housing units or commercial activity over the next few years. Additionally, Ecology's implementation of a Nutrients General Permit on the Facility on January 1, 2022, will require future capital investment needs to comply with permitting requirements. The Facility will continue to refine its operational procedures and seek means to reduce operational expenses and debt.

**REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of the Facility's finances for all those with an interest in the financial health of the Facility.

Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Randy Screws, General Manager, West Sound Utility District, 2924 SE Lund Ave., Port Orchard, WA 98366.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING AND FINANCIAL POLICIES**

The accounting policies of the South Kitsap Water Reclamation Facility (Facility) conform to generally accepted accounting principles (GAAP) as applicable to proprietary funds of governments. These and consecutive statements are reflected in the accompanying financial statements (including notes to financial statements).

The following is a summary of the most significant policies (including identification of those policies which result in material departures from the generally accepted accounting principles).

A. Reporting Entity

The Facility is a subdivision of the City of Port Orchard (City) and West Sound Utility District (District) that operates with oversight by a six-member Sewer Advisory Board comprised of three City Council members and three District Commissioners. As required by generally accepted accounting principles, management has considered all potential component units in defining the reporting entity. The Facility has no component units.

B. Basis of Accounting and Presentation

The accounting records of the Facility are maintained in accordance with methods prescribed by the State Auditor under the authority of Chapter 43.09 RCW. The Facility uses the *Uniform System of Accounts for Class B Utilities*.

The Facility's "proprietary funds" ("Enterprise Utilities" and "Internal Service" funds) are accounted for using the full-accrual basis of accounting for the Facility where revenues are recognized when earned and expenses are recognized when incurred. Capital asset purchases are capitalized, and long-term liabilities are accounted for in the appropriate funds.

The Facility distinguishes between operating revenues and expenses from non-operating items. Operating revenues and expenses are derived from the sewer services provided to the City and District. Operating expenses include the cost of providing these sewer services as well as depreciation on capital assets. All revenues and expenses not meeting the above criteria are reported as non-operating revenues and expenses. Unbilled receivables are recorded at year-end. Other income includes gains and losses from the disposal of capital assets.

C. Financial Management Policies

The Board of Commissioners adopted comprehensive financial management policies which are reviewed and updated during the District's budget process. The financial health and welfare of the District is highly dependent upon establishing and maintaining sound, financial-planning objectives and strategies of implementation. As a result, the implementation of these policies provides direction in the decision-making process of the District's Board of Commissioners and District Administration while operating to provide stability to changing service and financial conditions. Such policies enable District

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility**  
*Notes to Financial Statements*  
*For the Year Ending December 31, 2022*

---

officials to protect the public interest and ensure trust and confidence in the District’s management of water and wastewater operations and assets. The District’s financial management policies include the following components: financial philosophies; budget process; basis of accounting and budgeting; accounting financial reporting, forecasting, information system integrity and auditing policies; operating budget policies: revenue and expenditure policies; capital improvement policies; utility fund policies; internal service fund policies; investment policies and cash management; and debt management policies.

D. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Facility considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

E. Capital Assets

See Note (2)

F. Investments

All investments are stated at fair value in accordance with generally accepted accounting principles. Interest is recognized in non-operating revenues as earned. Changes in the fair value of investments are also included in non-operating revenues (expenses). Unrealized gains and losses are recognized on the books as of the statement of net position date. (See Note 4)

G. Compensated Absences

Compensated absences are absences for which employees will be paid, such as vacation and sick leave. Additionally, employees may accumulate up to twenty-four (24) hours of comp time earned during the calendar year. The Facility records unpaid leave for compensated absences as an expense and liability when incurred.

Vacation pay may be accumulated up to a maximum accrual of two hundred forty (240) hours and may be carried over to the employee’s anniversary month. The board of Commissioners approved resolution 795-18 “Modifying Vacation (Annual Leave) Policy” on January 7, 2019. This policy revision provides an option for employees to receive compensation for up to one or two standard workweeks of accrued vacation leave within a calendar year based on certain criteria. Accrued vacation pay is payable upon an employee taking a vacation or upon termination of employment, retirement, or death. Sick leave in excess of one thousand forty (1040) hours of the current year shall be deposited into a VEBA account for the employee at a rate of fifty (50) percent of the overage amount. Annual leave and sick leave are payable as follows:

Retirement (vacation)	100% of current balance, not to exceed 240 hours
Retirement (sick leave)	50% not to exceed of 1040 hours
Death (vacation)	100% of current balance
Death (sick leave)	50% not to exceed of 1040 hours

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
Notes to Financial Statements  
For the Year Ending December 31, 2022**

Voluntary Resignation (vacation)	100% of current balance
Voluntary Resignation (sick leave)	25%

H. Long-Term Debt

Long term debt and other obligation are reported as liabilities in the statement of net position. (See Note 3)

I. Infrastructure

Governmental Accounting Standards Board Statement No. 34 allows two methods of reporting for a local government. One is called the “modified approach” and the other is based upon “historical cost”. The Facility has always reported its infrastructure on a historical cost basis with a corresponding offset as accumulated depreciation. The Facility will continue to use “historical cost” as the basis of reporting its infrastructure and use straight-line depreciation as the method to depict the value of the asset being used over time.

J. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of all the state sponsored pension plans and additions to/deductions from those plans’ fiduciary net position have been determined on the same basis as they are reported by the Washington State Department of Retirement Systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For purposes of calculating the restricted net position related to the net pension asset, the District includes the net pension asset and the related deferred outflows and deferred inflows.

**NOTE 2 – CAPITAL ASSETS**

Major expenses for capital assets, including capital leases and major repairs that increase useful life, are capitalized. The Facility capitalizes purchases that meet these criteria when the individual cost threshold exceeds \$5,000, as set forth in Resolution 337-12, “Capital Asset Policy”. Maintenance, repairs, and minor renewals are accounted for as expenses when incurred.

The Facility in service and other capital assets are recorded at cost where historical cost is known. Where historical cost is not known, assets are recorded at fair market value.

The original cost of operating property retired or disposed of and the cost of installation, less salvage, is charged to accumulated depreciation. However, in the case of the sale of a significant

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
Notes to Financial Statements  
For the Year Ending December 31, 2022**

operating unit or system, the original cost is removed from the Facility accounts, accumulated depreciation is charged with the accumulated depreciation related to the property sold, and the net gain or loss on disposition is credited or charged to income.

Depreciation was computed on the straight-line method. The initial depreciation on the Facility is recorded in the year subsequent to purchase. Structures and Improvements have a useful life of thirty-five to fifty years, Facility Equipment has ten to fifteen years and Vehicles have ten years. Preliminary costs incurred for proposed projects are deferred pending construction. Costs relating to projects ultimately constructed are transferred to the Facility; charges that relate to abandoned projects are expensed.

The Facility's activity for the year ending December 31, 2022 was as follows:

	Beginning Balance 01/01/2022	Increase	Decrease	Transfers	Ending Balance 12/31/2022
The Facility not being depreciated:					
Land	309,540				309,540
CIP	67,653			(67,653)	
Total the Facility not depreciated	\$ 377,193		\$ -	\$ (67,653)	\$ 309,540
The Facility being depreciated:					
Structures & Improvements	31,354,598				31,354,598
Plant Equipment	7,925,937		407,406	67,653	7,586,183
Tools & Equipment	137,861		2,492		135,369
Vehicles	110,030				110,030
Total the Facility being depreciated	\$ 39,528,426		\$ 409,898	\$ 67,653	\$ 39,186,180
Accumulated Depreciation	20,229,296	864,808	342,245		20,751,858
Total the Facility depreciated, net	19,299,130	(864,808)	67,653		18,434,322
Total the Facility capital assets, net	\$ 19,676,323		\$ 932,461		\$ 18,743,862

**NOTE 3 – LONG-TERM DEBT AND LIABILITIES**

A. Long-Term Debt

The Facility has two Public Work Trust Fund loans for its expansion. Loan #1 matured in 2022 and loan #2 will mature in 2024. Both loans were issued at interest rates of one-half percent (0.5%). The annual requirements to amortize all debts outstanding as of December 31, 2022, including interest, are as follows:

Year Ending December 31	Principal	Interest	Total
2023	360,000	3,600	363,600
2024	360,000	1,800	361,800
Total	\$ 720,000	\$ 5,400	\$ 725,400

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
Notes to Financial Statements  
For the Year Ending December 31, 2022**

**B. Change in Long Term Liabilities**

During the year ended December 31, 2022, the following changes occurred in long-term liabilities:

	Beginning Balance 1/1/2022	Additions	Reduction	Ending Balance 12/31/2022	Due within One Year 2023
PWTF Loan #1	552,595		552,595	-	
PWTF Loan #2	1,080,000		360,000	720,000	360,000
Compensated Absences	160,473	11,084		171,557	52,365
Net Pension Liabilities	58,228	75,004		133,232	
<b>Total</b>	<b>928,912</b>	<b>86,087</b>	<b>912,595</b>	<b>1,024,789</b>	<b>412,365</b>
Less Current Portion				\$ 412,365	
<b>Total Long-Term Liabilities</b>				<b>\$ 612,424</b>	

**NOTE 4 – DEPOSITS AND INVESTMENTS**

**A. Deposits**

Custodial credit risk (deposits). Custodial risk for deposits is the risk that, in the event of a bank failure, the government's deposits may not be returned. The Plant has not adopted a policy that addresses deposit custodial risk; however, Kitsap County is the Treasurer for the District's funds. The Plant's deposits are covered by Federal Depository Insurance (FDIC) or by collateral held in a multiple financial institution collateral pool administered by the Washington Public Deposit Protection Commission (PDPC). In the event of a bank failure, claims for the District's deposits would be satisfied by FDIC or from the sale of collateral held in the PDPC pool.

**B. Investments**

As required by state law, all investments of the District's funds are obligations of the U.S. Government, U.S. agency issues, obligations of the State of Washington, general obligations of Washington State municipalities, or certificates of deposit with Washington State banks and savings and loan institutions. Currently, all investments of the Facility are invested through the Kitsap County Treasurer's Office in the County's external investment pool. The Facility's investments in the pool are reported at fair value, which is the same as the value of the Pool per share. The responsibility for managing the pool resides with the County Treasurer. The Pool is established from the RCW 36.29 which authorizes the County Treasurer to invest the funds of participants. The County's investment policy is established by the Kitsap County Finance Committee (KCFC), which consists of the County Treasurer, County Auditor, and Chair of the Board of County Commissioners. The

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
Notes to Financial Statements  
For the Year Ending December 31, 2022**

---

objectives of the KCFC are the preservation of capital, followed by liquidity and return. The County investment pool does not have a credit rating.

The Facility does not have a policy for custodial credit risk of investment securities. Further, the District is not subject to foreign currency risk or interest rate risk.

As of December 31, 2022, the Facility has the following cash and investments:

	Cash	Investments	Total
Washington State Investment Pool		\$ 4,196,852	\$ 4,196,852
Kitsap County Treasurer	\$ 369,381		\$ 369,381
Petty Cash	\$ 100		\$ 100
Total	\$ 369,481	\$ 4,196,852	\$ 4,566,333

**NOTE 5 – JOINT VENTURE**

In 1983, the City and the District (Formerly Kitsap County Sewer District #5) entered into an interlocal cooperative agreement and created a utility local improvement district (ULID) to help finance the construction of a jointly owned wastewater treatment facility. Construction of the Facility was completed in 1985. The participants pay their share of the operating and maintenance expenses based on their portion of the flow into the facility. The cost-sharing for 2022 was 47.92% for the City and 52.08% for the District, where each entity contributes an adequate amount of revenue generated from the sewer utility customer rates to fund the Facility’s operational costs. In addition, the City and District also transfer each year an established amount of general facility charges to assist in funding the Facility’s debt obligations. In 2014, the District and City negotiated and executed a new interlocal agreement that resulted in extending the responsibilities of the District in managing and operating the Facility, in addition to resolving issues pertaining to property, asset ownership, liability, and insurance.

A Sewer Advisory Board comprised of the three City Council members and three District Commissioners, review and approves the revenue allocation formula each year to ensure that the revenue contributions from the City and District are equitable and the amount is sufficient to cover the Facility’s current and future maintenance, capital, debt obligation and operations expenses. In accordance with the joint venture agreement, the District manages the operations of the Facility.

A major expansion of the Facility was approved in 2002 and cost approximately \$21.5 million. This project was approved for a \$10 million Public Works Trust Fund Loan (PWTF Loan #1) in 2002. Another Public Works Trust Fund Loan was approved in 2004 for \$6.8 million (PWTF Loan #2). The City was the lead agency for the expansion project. The City transferred the related assets and liabilities to the Facility upon completion of the project on December 31, 2007. On that date, all assets and liabilities related to the expansion project were included in the financial statements of the Facility.

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
Notes to Financial Statements  
For the Year Ending December 31, 2022**

---

The District maintains separate accounting records and prepares separate financial statements of the operations of the Facility. The District's Finance Department provides accounting and financial support services to the Facility. Financial statements for the Facility can be obtained at the District office, 2924 SE Lund Ave., Port Orchard, WA or the District's website at [www.wsud.us](http://www.wsud.us).

**NOTE 6 – PENSION PLANS**

The following table represents the aggregate pension amounts for all plans for the year 2022:

Aggregate Pension Amounts – All Plans	
Pension liabilities	\$(133,232)
Pension Assets	\$ 230,797
Deferred outflows of resources	\$245,062
Deferred inflows of resources	\$(255,654)
Pension expense/expenditures	\$(19,133)

**State-Sponsored Pension Plans**

Substantially all Facility's full-time and qualifying part-time employees participate in one of the following statewide retirement systems administered by the Washington State Department of Retirement Systems, under cost-sharing multiple-employer public employee defined benefit and defined contribution retirement plans. The State Legislature establishes, and amends, laws pertaining to the creation and administration of all public retirement systems.

Department of Retirement Systems (DRS), a department within the primary government of the State of Washington, issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for each plan. The DRS CAFR may be obtained by writing to:

Department of Retirement Systems  
Communications Unit,  
P.O. Box 48380  
Olympia, WA 98540-8380

Or the DRS CAFR may be downloaded from the DRS website at [www.drs.wa.gov](http://www.drs.wa.gov).

**Public Employees' Retirement System (PERS)**

PERS members include elected officials; state employees; employees of the Supreme, Appeals and Superior Courts; employees of the legislature; employees of district and municipal courts; employees of local governments; and higher education employees not participating in higher education retirement programs. PERS is comprised of the three separate pension plans for

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
Notes to Financial Statements  
For the Year Ending December 31, 2022**

---

membership purposes. PERS plans 1 and 2 are defined benefit plans, and PERS plan 3 is a defined benefit plan with a defined contribution component.

**PERS Plan 1** provides retirement, disability and death benefits. Retirement benefits are determined as two percent of the member’s average final compensation (AFC) times the member’s years of service. The AFC is the average of the member’s 24 highest consecutive service months. Members are eligible for retirement from active status at any age with at least 30 years of service, at age 55 with at least 25 years of service, or at age 60 with at least five years of service. Members retiring from active status prior to the age of 65 may receive actuarially reduced benefits. Retirement benefits are actuarially reduced to reflect the choice of a survivor benefit. Other benefit include duty and non-duty disability payments, an optional cost-of-living adjustment (COLA), and a one-time duty-related death benefit, if found eligible by the Department of Labor and Industries. PERS 1 members were vested after the completion of five years of eligible service. The plan was closed to new entrants on September 30, 1977.

Contributions

The PERS Plan 1 member contribution rate is established by State stature at 6%. The employer contribution rate is developed by the Office of the State of Actuary and includes an administrative expense component that is currently set at 0.18%. Each biennium, the state Pension Funding Council adopts Plan 1 employer contribution rates. The PERS Plan 1 required contribution rates (expressed as a percentage of covered payroll) for 2022 were as follows:

PERS Plan 1		
Actual Contribution Rates	Employer	Employee
January – August 2022		
PERS Plan 1	6.36%	6.00%
PERS Plan 1 UAAL	3.71%	
Administrative Fee	0.18%	
Total	10.25%	6.00%
September – December 2022		
PERS Plan 1	6.36%	6.00%
PERS Plan 1 UAAL	3.85%	
Administrative Fee	0.18%	
Total	10.39%	6.00%

**PERS Plan 2/3** provides retirement, disability and death benefits. Retirement benefits are determined as two percent of the member’s average final compensation (AFC) times the member’s years of service for Plan 2 and 1% of AFC for Plan 3. The AFC is the average of the member’s 60 highest-paid consecutive service months. There is no cap on years of service credit. Members are eligible for retirement with a full benefit at 65 with at least five years of service credit. Retirement before age 65 is considered an early retirement. PERS Plan 2/3 members who have at least 20 years of service credit and are 55 years of age or older, are eligible for early retirement

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
Notes to Financial Statements  
For the Year Ending December 31, 2022**

---

with a benefit that is reduced by a factor that varies according to age for each year before age 65. PERS Plan 2/3 members who have 30 or more years of service credit and are at least 55 years old can retire under one of two provisions:

- With a benefit that is reduced by 3% for each year before age 65; or
- With a benefit that has a smaller (or no) reduction (depending on age) that imposes stricter return-to-work rules.

PERS Plan 2/3 members hired on or after May 1, 2013, have the option to retire early by accepting a reduction of 5% for each year of retirement before age 65. This option is available only to those who are age 55 or older and have at least 30 years of service credit. PERS Plan 2/3 requirement benefits are also actuarially reduced to reflect the choice of a survivor benefit. Other PERS Plan 2/3 benefits include duty and non-duty disability payments, a cost-of-living allowance (based on the CPI), capped at three percent annually and a one-time duty related death benefit, if found eligible by the Department of Labor and Industries. PERS 2 members are vested after completing five years of eligible service. Plan 3 members are vested in the defined benefit portion of their plan after ten years of service; or after five years of service if 12 months of that service is earned after age 44.

**PERS Plan 3** defined contribution benefits are totally dependent on employee contributions and investment earnings on those contributions. PERS Plan 3 members choose their contribution rate upon joining membership and have a chance to change rates upon changing employers. As established by statute, Plan 3 required defined contribution rates are set at a minimum of 5% and escalate to 15% with a choice of six options. Employers do not contribute to the defined contribution benefits. PERS Plan 3 members are immediately vested in the defined contribution portion of their plan.

Contributions

The PERS Plan 2/3 employer and employee contribution rates are developed by the Office of the State Actuary to fully fund Plan 2 and the defined benefit of Plan 3. The Plan 2/3 employer rates include a component to address the PERS Plan 1 UAAL and an administrative expense that is currently set at 0.18%. Each biennium, the state Pension Funding Council adopts Plan 2 employer and employee contribution rates and Plan 3 contribution rates. The PERS Plan 2/3 required contribution rates (expressed as a percentage of covered payroll) for 2022 were as follows:

PERS Plan 2/3		
Actual Contribution Rates	Employer 2/3	Employee 2
January – August 2022		
PERS Plan 2/3	6.36%	6.36%
PERS Plan 1 UAAL	3.71%	
Administrative Fee	0.18%	
Employee PERS Plan 3		Varies
Total	10.25%	6.36%

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility**  
*Notes to Financial Statements*  
*For the Year Ending December 31, 2022*

---

September – December 2022		
PERS Plan 2/3	6.36%	6.36%
PERS Plan 1 UAAL	3.85%	
Administrative Fee	0.18%	
Employee PERS Plan 3		Varies
Total	10.39%	6.36%

The Facility’s actual PERS plan contributions were \$29,837 to PERS Plan 1 and \$50,521 to PERS Plan 2/3 for the year ended December 31, 2022.

**Actuarial Assumptions**

The total pension liability (TPL) for each of the DRS plans was determined using the most recent actuarial valuation completed in 2022 with valuation date of June 30, 2021. The actuarial assumptions used in the valuation were based on the results of the Office of the State Actuary’s (OSA) *2013-2018 Experience Study* and the *2021 Economic Experience Study*.

Additional assumptions for subsequent events and law changes are current as of the 2021 actuarial valuation report. The TPL was calculated as of the valuation date and rolled forward to the measurement date of June 30, 2022. Plan liabilities were rolled forward from June 30, 2021, to June 30, 2022, reflecting each plan’s normal cost (using the entry-age cost method), assumed interest and actual benefit payments.

- Inflation: 2.75% total economic inflation; 3.25% salary inflation.
- Salary increases: In addition to the base 3.25% salary inflation assumption, salaries are also expected to grow by promotions and longevity.
- Investment rate of return: 7.00%

Mortality rates were developed using the Society of Actuaries’ Pub. H-2010 mortality rates, which vary by member status (e.g. active, retiree, or survivor), as the base table. OSA applied age offsets for each system, as appropriate, to better tailor the mortality rates to the demographics of each plan. OSA applied the long-term MP-2017 generational improvement scale, also developed by the Society Actuaries, to project mortality rates for every year after the 2010 base table. Mortality rates are applied on a generational basis; meaning, each member is assumed to receive additional mortality improvements in each future year throughout his or her lifetime.

Methods did not changes from the prior contribution rate setting June 30, 2019 Actuarial Valuation Report (AVR), however OSA introduced a temporary method change to produce asset and liability measures for the June 30, 2020 AVR. There were also the following assumption changes:

- OSA updated the Joint-and-Survivor Factors and Early Retirement Factors in the model. Those factors are used to value benefits for early retirement and survivors of members that are

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
Notes to Financial Statements  
For the Year Ending December 31, 2022**

---

deceased prior to retirement. These factors match the administrative factors provided to DRS for future implementation that reflect current demographic and economic assumptions.

- OSA updated the economic assumptions based on the 2021 action of the PFC and LEOFF Plan 2 Retirement Board. The investment return assumption was reduced from 7.5% to 7%, and the salary growth assumption was lowered from 3.5% to 3.25%. This action is a result of recommendations from OSA’s biennial economic experience study.

**Discount Rate**

The discount rate used to measure the total pension liability for all DRS plans was 7.0%.

To determine that rate, an asset sufficiency test was completed to test whether each pension plan’s fiduciary net position was sufficient to make all projected future benefit payments for current plan members. Based on OSA’s assumptions, the pension plans’ fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return of 7.0% was used to determine the total liability.

**Long-Term Expected Rate of Return**

The long-term expected rate of return on the DRS pension plan investments of 7.0% was determined using a building-block-method. In selecting this assumption, the OSA reviewed the historical experience data, considered the historical conditions that produced past annual investment returns, and considered Capital Market Assumptions (CMAs) and simulated expected investment returns provided by the Washington State Investment Board (WSIB). The WSIB uses the CMA’s and their target asset allocation to simulate future investment returns at various future times.

**Estimated Rates of Return by Asset Class**

The table below summarizes the best estimates of arithmetic real rates of return for each major asset class included in the pension plan’s target asset allocation as of June 30, 2022. The inflation component used to create the table is 2.2% and represents the WSIB’s most recent long-term estimate of broad economic inflation.

Asset Class	Target Allocation	% Long-Term Expected Real Rate of Return Arithmetic
Fixed Income	20%	1.5%
Tangible Assets	7%	4.7%
Real Estate	18%	5.4%
Global Equity	32%	5.9%
Private Equity	23%	8.9%
	100%	

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
Notes to Financial Statements  
For the Year Ending December 31, 2022**

---

**Sensitivity of the Net Pension Liability/ (Asset)**

The table below presents the Facility’s proportionate share of the net pension liability calculated using the discounts rate of 7%, as well as what the Facility’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% point lower (6%) or 1% point higher (8%) than the current rate.

	1% Decrease (6%)	Current Discount Rate (7%)	1% Increase (8%)
PERS 1	\$177,996	\$133,232	\$94,163
PERS 2/3	\$271,794	\$(230,797)	\$(643,708)

**Pension Plan Fiduciary Net Position**

Detailed information about the State pension plans’ fiduciary net position is available in the separately issued DRS financial report.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2022, the Facility reported its proportionate share of the net pension liabilities (or assets) as follows:

	Liability (or Asset)
PERS 1	\$133,232
PERS 2/3	\$(230,797)

At June 30, the Facility’s propotionate share of the collective net pension liabilities was as follows:

	Proportionate Share 6/30/21	Proportionate Share 6/30/22	Change in Proportion
PERS 1	0.004768%	0.004785%	0.000017%
PERS 2/3	0.006132%	0.006223%	0.000091%

Employer contribution transmittals received and processed by the DRS for the fiscal year ended June 30, 2022 are used as the basis for determining each employer’s proportionate share of the collective pension amounts reported by the DRS in the *Schedules of Employer and Nonemployer Allocations* for all plans.

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
Notes to Financial Statements  
For the Year Ending December 31, 2022**

---

**Pension Expense**

For the year ended December 31, 2022, the Facility recognized pension expense as follows:

	Pension Expense
PERS 1	\$61,201
PERS 2/3	\$(80,335)
TOTAL	\$(19,133)

**Deferred Outflows of Resources and Deferred Inflows of Resources**

At December 31, 2022, the Facility reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

PERS 1	Deferred Outflows	Deferred Inflows
Net difference between projected and actual investment earnings on pension plan investments		\$ (22,080)
Contributions subsequent to the measurement date	\$15,144	
TOTAL	\$15,144	\$ (22,080)

PERS 2/3	Deferred Outflows	Deferred Inflows
Differences between expected and actual experience	\$57,186	\$ (5,225)
Net difference between projected and actual investment earnings on pension plan investments		\$ (170,630)
Changes of assumptions	\$128,638	\$ (33,682)
Changes in proportion and differences between contributions and proportionate share of contributions	\$18,761	\$ (24,037)
Contributions subsequent to the measurement date	\$25,334	
TOTAL	\$229,918	\$ (233,574)

Deferred outflows of resources related to pensions resulting from the Facility's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2023. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions were recognized in pension expenses as follows:

Year ended December 31:	PERS 1	PERS 2/3
2023	\$ (9,344)	\$ (56,267)
2024	\$ (8,487)	\$ (46,638)
2025	\$ (10,646)	\$ (56,800)
2026	\$ 6,397	\$ 76,062

**Joint Wastewater Treatment Facility  
aka South Kitsap Water Reclamation Facility  
Notes to Financial Statements  
For the Year Ending December 31, 2022**

2027		\$ 27,811
Thereafter		\$ 26,842
Total	\$ (22,080)	\$ (28,989)

**NOTE 7 – RISK MANAGEMENT**

The Facility is a member of the Water and Sewer Risk Management Pool (Pool). Chapter 48.62 RCW authorizes the governing body of any one or more governmental entities to form together into or join a pool or organization for the joint purchasing of insurance, and/or joint self-insuring, and/or joint hiring or contracting for risk management services to the same extent that they may individually purchase insurance, self-insurance, or hire or contract for risk management services. An agreement to form a pooling arrangement was made pursuant to the provisions of Chapter 39.34 RCW, the Interlocal Cooperation Act. The Pool was formed in November 1987 when water and sewer districts in the State of Washington joined together by signing an Interlocal Governmental Agreement to pool their self-insured losses and jointly purchase insurance and administrative services. The Pool currently has 70 members. The Pool’s fiscal year is November 1st through October 31st.

The Pool allows members to jointly purchase insurance coverage, establish a plan of self-insurance coverage, and provide related services, such as risk management and loss prevention. The Pool provides the following forms of group purchased insurance coverage for its members: All-Risk Property (including Building, Electronic Data Processing, Boiler and Machinery, and Mobile Equipment); General Liability; Automotive Liability; Excess Liability, Crime; Public Officials Liability; Employment Practices Liability, Cyber Liability, Identity Fraud Reimbursement Program; and bonds of various types. Most coverages are on an “occurrence” basis.

Members make an annual contribution to fund the Pool. The Pool purchases insurance policies from unrelated underwriters as follows:

TYPE OF COVERAGE	MEMBER DEDUCTIBLE	SELF-INSURED RETENTION/ GROUP	EXCESS LIMITS
Property Loss:			
Buildings and Contents	\$1,000 - \$25,000 and See (C) below	\$25,000	\$275,000,000
Flood	See (A) below	See (A) below	\$20,000,000
Earthquake	See (B) below	See (B) below	\$100,000,000 (\$75,000,000 shared by all members,

Boiler & Machinery	\$1,000 - \$350,000 depending on object	\$25,000 - \$350,000 depending on object	\$100,000,000
Auto - Physical Damage	\$1,000-\$25,000	\$25,000	Replacement Value Coverage
<b>Liability:</b>			
Commercial General Liability	\$1,000 - \$25,000	\$500,000	\$10,000,000
Auto Liability	\$1,000 - \$25,000	Same as above	\$10,000,000
Public Officials Errors and Omissions	\$1,000 - \$25,000	Same as above	\$10,000,000
Employment Practices	\$1,000 - \$25,000	Same as above	\$10,000,000
<b>Other:</b>			
Cyber Liability	\$50,000	N/A	\$2,000,000
Public Officials Bonds	Various	N/A	Various
Crime	\$1,000 - \$25,000	\$25,000	\$2,000,000
Identity Fraud	\$0	\$0	\$25,000

- A. \$100,000 member deductibles, per occurrence, in Flood zones except Zones A&V; \$250,000 member deductible per occurrence, in Flood Zones A&V.
- B. Member deductible for earthquakes is 5% subject to a \$100,000 minimum Earthquake Shock. The deductible will apply per occurrence on a per-unit basis, as defined in the policy form, subject to the stated minimum.
- C. Member deductible for Cyber liability is \$50,000 and where applicable the dollar amount of the business interruption loss during the policy's required 8-hour waiting period.

Pool members are responsible for a deductible on each coverage and the Pool is responsible for the remainder of the self-insured retention listed in the table above except where noted as follows. The insurance carriers then cover the loss to the maximum limit of the policy. Each member is responsible for the full deductible applicable to the perils of earthquake and flood (the Pool is not responsible for any deductible or self-insured retention for earthquake and flood claims). Each member is also responsible for the full deductible applicable to the Cyber Liability, and that part of a Boiler & Machinery deductible, which exceeds \$25,000.

Upon joining, the members contract to remain in the Pool for one full policy period. Following completion of one full policy period, members must give six months' notice before terminating participation (e.g. to withdraw from the Pool on November 1, 2022, written notice must be in possession of the Pool by April 30, 2022). The Interlocal Governmental Agreement is renewed automatically each year. Even after termination of a relationship with the Pool, a member is still

---

responsible for contributions to the Pool for any unresolved, unreported, and in-process claims, for the period that the Facility was a signatory to the Interlocal Governmental Agreement.

The Pool is fully funded by its member participants. Claims are filed by members of the Pool who determine coverage and perform claims adjustments in consultation with various independent public adjusters.

The Pool is governed by a Board of Directors, which is comprised of one designated representative from each participating member. An Executive Committee is elected at the annual meeting and is responsible for overseeing the business affairs of the Pool and providing policy direction to the Pool's Executive Director.

In the past three years, the Facility did not have any settlements that exceeded the insurance coverage.

**NOTE 8 – ASSET RETIREMENT OBLIGATIONS**

Under state law, sewer treatment plants are required to decommission upon its closure. However, the Plant is maintained in very good condition through keeping updates and expansion in the future. The Department of Ecology has not required any decommission during its annual permit process. There is no closure prediction in 100 years so the Plant has no asset retirement obligations at this point.

**aka South Kitsap Water Reclamation Facility**  
*Notes to Required Supplemental Information - Pension*  
*For the Year Ending December 31, 2022*

---

**Note 1: Information Provided**

The Facility implemented GASB 68 for the year ended December 31, 2014. Therefore, there is no data available for years prior to 2014.

The Facility shared the Organization Identification Number under the Washington State Department of Retirement System with West Sound Utility District (WSUD) until July 2016. All pension data including allocation percentage were recalculated according to the percentage of the District and the Facility's contributions.

**Note 2: Significant Factors**

There are no changes of benefit terms, significant changes in the employees covered under the benefit terms or in the use of different assumptions

**Note 3: Covered Payroll**

The covered payroll has been presented in accordance with GASB 82, Pension Issues. Covered payroll includes all payroll on which a contribution is based.

**Note 4: Contribution Rate**

Rates in effect during the periods covered by the Required Supplemental Information are below:

From this date	Through this date	PERS 1 & 2/3 Rate*
9/1/2013	6/30/2015	9.21%
7/1/2015	6/30/2017	11.18%
7/1/2017	8/31/2018	12.70%
9/1/2018	6/30/2019	12.83%
7/1/2019	8/31/2020	12.86%
9/1/2020	6/30/2021	12.97%
7/1/2021	8/31/2022	10.25%
9/1/2022	Current	10.39%

\* Employer contribution rate includes an administrative expense rate of 0.18%
