

## WATER / SEWER AVAILABILITY REQUEST

### Application Purpose:

Water
<input type="checkbox"/> Utility Services Information/Non-binding <sup>1</sup>
<input type="checkbox"/> Limited Binding Reservation <sup>2</sup>
<input type="checkbox"/> Binding Commitment <sup>3</sup>

Sewer
<input type="checkbox"/> Utility Services Information/Non-binding <sup>1</sup>
<input type="checkbox"/> Limited Binding Reservation <sup>2</sup>
<input type="checkbox"/> Binding Commitment <sup>3</sup>

<sup>1</sup> Utility Services Information/Non-binding: Information for water or sewer system availability means the District currently has available water or sewer system capacity but does not guarantee the future availability of water or sewer system capacity or system connection.

<sup>2</sup> Limited Binding Reservation: A Limited Binding Reservation of water or sewer system capacity means that, upon payment of a non-refundable charge, the District shall reserve and guarantee water or sewer system capacity and connection for a limited period subject to the requirements stipulated in the Limited Binding Reservation Letter\Certificate. Once expired the District does not guarantee the future availability of water or sewer system capacity or system connection beyond the limited reservation. The District allows for limited reservations for each tax parcel at a rate of 5% per year of the current adopted rate for the respective General Facility Charges. Limited Reservations can be no greater than two years per reservation period and extensions paid no sooner than ninety (90) days prior to expiration.

Developers are required to make payment on the number of proposed connections types for utility services when entering into a Developers Extension Contract (DEC) with the District for the term of the DEC. On larger developments, once the Final Plat subdivision is recorded, the remaining Limited Reservation period is distributed among the recorded lots. GFC's paid within the currently paid limited reservation period are applied as a credit against the GFC charges for the current Limited Binding Reservation charge paid only.

<sup>3</sup> Binding Commitment: A binding commitment for water or sewer system capacity means that, upon payment of a non-refundable charge for General Facility Charges (GFC's) for defined Equivalent Residential Units for a specific tax parcel, the District shall reserve water and/or sewer system capacity and shall allow connection for perpetuity subject to the requirements stipulated in the Binding Letter\Certificate to the District's water and/or sewer system once applicable connection fees (Water) and/or Treatment Capital Charges (Sewer) are paid.
