

Cross Connection Jurisdictions

 Annexed Water Service Area  CWSP Service Area  Port Orchard City Limits

Due to the mixed boundary areas with the City of Port Orchard, the Authority Having Jurisdiction for assemblies may be complicated. In general, West Sound Utility District wants to have premises isolation for all commercial properties and most residential where a potential cross connection hazard exists. If there is a device that is confirmed by the district to be providing premises isolation, we do not require the internal devices test reports be submitted to us. This does not exempt them from annual testing requirements by other AHJ's. If you have questions about your site or assemblies, please get in touch with us.
